## Application

AF09Z ... AF30Z contactors are used for controlling power circuits up to 600 V AC and 240 V DC.
They are mainly used for controlling 3-phase motors, non-inductive or slightly inductive loads.

## Description

- AF09Z ... AF30Z contactors include an electronic coil interface accepting a wide control voltage $\mathbf{U}_{\mathrm{c}}$ min. ... $\mathbf{U}_{\mathrm{c}}$ max and managing large control voltage variations.
- AF. $\mathbf{Z}$ contactors cover control voltages comprised between $24 \ldots 250 \mathrm{~V} 50 / 60 \mathrm{~Hz}$ or $12 \ldots .250 \mathrm{~V}$ DC
- AF..Z contactors allow direct control by PLC-output $\geq 24 \mathrm{~V}$ DC 500 mA and obtain a reduced holding coil consumption.
- AF..Z contactors withstand short dips and voltage interruptions (SEMI F47-0706 compliance)
- AF..Z contactors have built-in surge protection and do not require additional surge suppressors
- The built-in N.C. auxiliary contact is a mirror contact in compliance with annex F of IEC 60947-4-1.

Note: Only AF..Z contactors with DC control voltage $12 \ldots .20 \mathrm{~V}$ DC need to respect the connection polarities indicated close to the coil terminals: A1+ for the positive pole and A2- for the negative pole

Auxiliary contact block
