Bus-Drop Cable Clamps - Sky-Tie™

STANDARD FEATURES

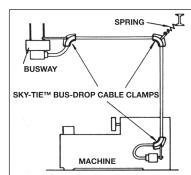

- Supports cable up to 1-1/8" diameter. Uniform "lap" design of each clamp-half results in support along the entire quarter bend.
- Anchors cable for 90° angle transitions using a simple, twopiece construction of interchangeable clamp-halves.
- Loops excess cable for convenient handling and out-of-the-way storage, via the Sky-Tie™ SHD Duplex Converter. The SHD reduces the need to cut cable when machines are moved to new locations. The SHD converter simply fits between the two halves of the Sky-Tie™ SH cable clamps.
- Uses: Machine Tools, Portable Tools, Air Lines, Other heavy-cable support applications.
- Sky-Tie[™] Springs Heavy-duty Sky-Tie[™] Springs insure
 tautness of the cable, while absorbing vibrations and shocks.
 Each spring slips into the Sky-Tie[™] clamp at its outside bend (or,
 if using the SHD Duplex, the converter's outside bend), and ties
 back to a structural member. Three spring models with
 maximum load capacities of 60, 70 and 160 pounds.
