

MINI FEED-THROUGH Panel Mount

For use when space constraints require extremely compact solutions and internal jumpering is required.

Individual components can be used to build your own assemblies. Just snap the required number of terminal block components together and place a Mounting Section on each end.

The CMB 4 accepts internal jumpers and standard marking tags.

- Extremely compact and cost effective
- High density
- Screw-cage clamp
- Internal jumpering provision
- Polyamide 6.6
- Standard color: gray
