

**Wet locations for 15A and 20A receptacles
NEC® 406.9**

The NEC defines wet locations as installations underground or in concrete slabs or masonry in direct contact with the earth; in locations subject to saturation with water or other liquids, such as vehicle washing areas; and in unprotected locations exposed to weather.

NEC® article 406.9 (B) (1) requires all 15- and 20-ampere, 125- and 250-volt receptacles installed in a wet location to have an enclosure that is weatherproof whether or not the plug is inserted. These receptacles must use a while-in-use cover.

Applicable Arrow Hart products:

WIU-1	WIU-1D	WIU-2	WIUMV-1	WIUMH-1
-------	--------	-------	---------	---------

**Wet locations for other receptacles
NEC® 406.9 (B) (2)**

All other receptacles installed in a wet location shall comply with (B)(2)(a) or (B)(2)(b).

(a) A receptacle installed in a wet location, where the product intended to be plugged into it is not attended while in use, shall have an enclosure that is weatherproof with the attachment plug inserted or removed.

(b) A receptacle installed in a wet location where the product intended to be plugged into it will be attended while in use (e.g. portable tools) shall have an enclosure that is weatherproof when the attachment plug is removed.

Applicable Arrow Hart products:

WLRS2	7420A	7788	WP1	S1954	S3966	S966
AH7879	5741NS	20446N	WP2	S2962	S992	S1966
7420	7420C	20416N	S1951	S3962	S994	S993

**Damp locations for receptacles
NEC® 406.9 (A)**

A damp location is defined as a location protected from weather and not subject to saturation with water or other liquids but subject to moderate degrees of moisture. Examples of such locations include partially protected locations under canopies, marquees, roofed pen porches, and like locations, and interior locations subject to moderated degrees of moisture, such as basements, barns, and cold storage buildings.

NEC® article 406.9 (A) requires receptacles installed in damp locations to have an enclosure for the receptacle that is weatherproof when the receptacle is covered (attachment plug is not inserted and receptacle cover is closed).

An installation suitable for wet locations shall also be considered suitable for damp locations.

Therefore, all catalog numbers noted for compliance to 406.9 (B)(1) and 406.9 (B)(2) are also suitable for use in damp locations.

Applicable Arrow Hart products:

S1961	S1962
-------	-------

**Wet or damp locations for switches
NEC® 404.4**

A surface-mounted switch or circuit breaker in a damp or wet location shall be enclosed in a weatherproof enclosure, and flush-mounted switches and circuit breakers in damp or wet locations shall be equipped with a weatherproof cover.

Applicable Arrow Hart products:

Weatherproof receptacle covers

Industrial specification grade device covers

Product description

Metal covers for FS/FD boxes

Deluxe weatherproof covers for FS/FD boxes

Features

- UL Listed for wet locations (cover closed) and damp locations (cover open or closed)
- Meets 2014 NEC® 406.9 (A) and 406.9 (B)(2)
- Diecast copper free aluminum with epoxy finish provides maximum corrosion resistance
- Self-closing spring door assures full protection
- EPDM gasketing material on WLRD1 and WLRS1 provide excellent resistance to ozone, weathering and temperatures from -46° C to 127° C (-50°F to 260°F)

WLRD1

WLRS1

7420

7420CR

Diecast aluminum receptacle covers

Description

Duplex receptacle cover, horizontal mounting

Catalog no.

WLRD1

Single receptacle cover, vertical mounting, 1.38" (34.9mm) face diameter, use with 15A, 20A straight blade and 15A Hart lock receptacles

WLRS1

Single receptacle cover, vertical mounting, 1.56" (39.7mm) face diameter, use with 20A and 30A Hart lock receptacles

WLRS2

Standard weatherproof covers for FS/FD boxes

Features

- UL Listed for wet locations (cover closed) and damp locations (cover open or closed)
- Meets 2014 NEC® 406.9 (A) and 406.9 (B)(2)
- Self-closing spring door assures full protection
- Gasketing material provides excellent resistance to weather
- Duplex covers can be used with any duplex receptacle

Diecast aluminum receptacle covers

Description

Duplex receptacle cover, vertical mounting

Catalog no.

AH7879*

Single receptacle cover, vertical mounting, 1.38-1.56" (34.9-39.7mm) face diameter, use with 15A and 20A single straight blade receptacles and 15A, 20A and 30A single Hart lock receptacles

7420

Single receptacle cover, vertical mounting, 1.38-1.56" (34.9-39.7mm) face diameter, yellow corrosion resistant finish, used with 15A and 20A single straight blade receptacles and 15A, 20A and 30A single Hart lock receptacles

7420CR

Single receptacle, vertical mounting for 2.12" (53.8mm) face diameter, use with 30A straight blade receptacles

7420A

* Not UL Listed

Note: Cat. no. 7420, 7420CR have inserts for protecting toggle; can be used with most standard length toggle switches.

Weatherproof receptacle covers

Industrial specification grade device covers

Product description

Metal and nylon covers

Weatherproof covers for 30A, 50A & 60A straight blade receptacles

Features

- UL Listed for wet locations (cover closed) and damp locations (cover open or closed)
- Meets 2014 NEC® 406.9 (A) and 406.9 (B)(2)
