

Power lock devices

For applications where the need for a secure connection is absolute

Power lock devices are designed for safety, energizing within a chamber to eliminate the possibility of exterior arcing. They are ideal for high-abuse industrial and specialized hospital applications

Nylon power lock plugs & connectors features & benefits

High-impact nylon shell ideal for use in high abuse installations

Neoprene gasket seals cord entry hole and prevents dust and moisture from entering terminal area

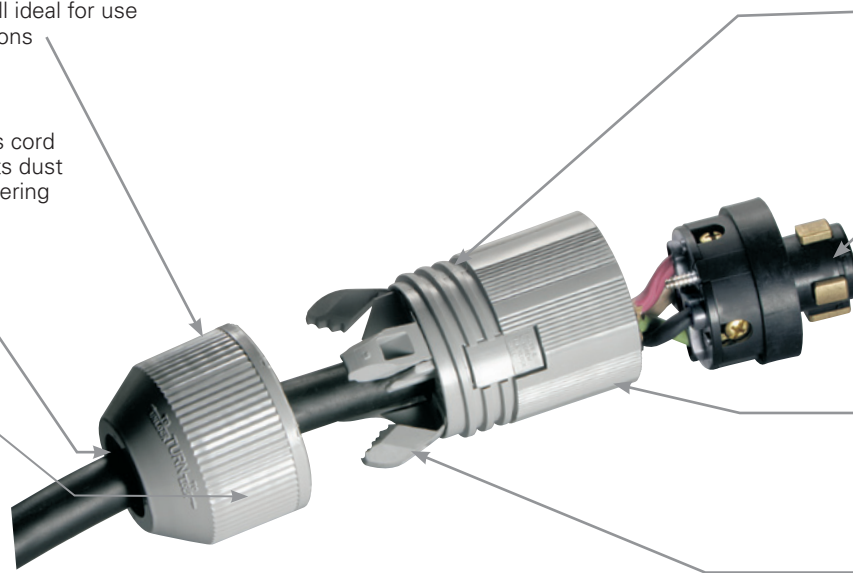

Tapered cord grip cover prevents cord snagging

Unique twist type cover eliminates assembly screws

Carefully machined contacts of high alloy brass molded into high impact resistant fiberglass reinforced nylon

Totally insulated design eliminates exposed metal parts

Innovative cord clamping fingers provide exceptional cord retention

Armored power lock plugs & connectors features & benefits

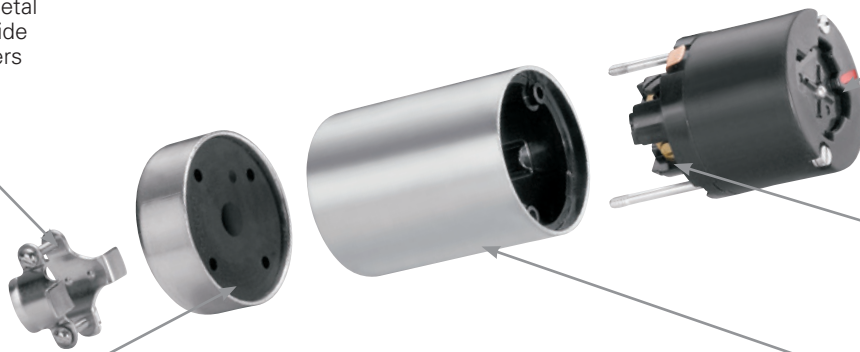

Adjustable external metal cord grip accepts a wide range of cord diameters

Neoprene grommet protects against contamination

Spring loaded safety shutter ejects the plug if not fully locked in and prevents entrance of foreign matter

Large pressure plate terminals for ease of wiring

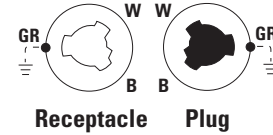

Rugged steel shell for maximum protection

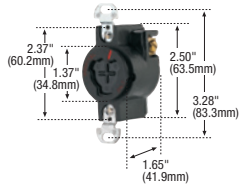

Power lock hospital use locking devices
