Watertight pin & sleeve mechanical interlocks

Combined pin & sleeve receptacle and disconnect switch

Pin & sleeve mechanical interlocks provide a separate means of disconnect for motor leads. For extra safety and compliance, these interlocks prevent the plug from being engaged or disengaged under load.

Watertight pin & sleeve mechanical interlocks features & benefits

Poured-in seamless gasket and tongue and groove design yields the ultimate seal against moisture and contamination

Dual mounting capability using corner mounting holes or supplied mounting feet

Blank enclosures without pre-drilled entries allow maximum installation flexibility; watertight hub and double grounding blocks provided

Available with option fuses and/or circuit breakers for additional circuit protection

Compliances, specifications and availability are subject to change without notice.
