Control Output Diagram

• NPN open collector output

• PNP open collector output

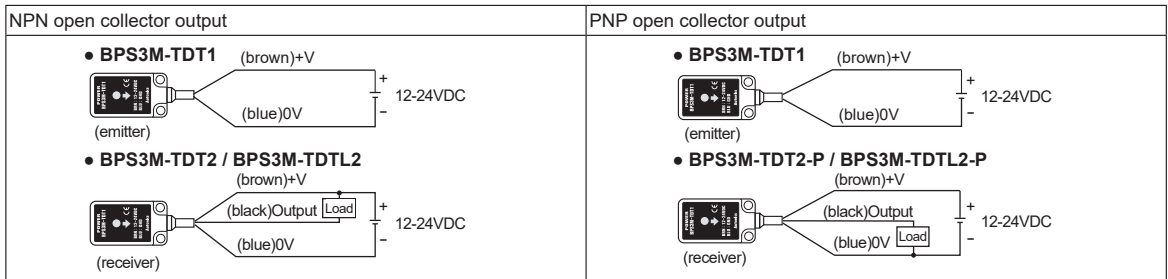

※ If short-circuit the control output terminal or supply current over the rated specification, normal control signal is not output due to the output short over current protection circuit.

Operation Mode

Operation mode	Light ON	Dark ON
Receiver operation	Received light Interrupted light	Received light Interrupted light
Operation indicator (red LED)	ON OFF	ON OFF
Transistor output	ON OFF	ON OFF

※ Dark ON mode is standard and Light ON (Received Light: ON) mode is customizable.
