

### Basic features

|                               |                                                                    |
|-------------------------------|--------------------------------------------------------------------|
| <b>Application</b>            | Assembly                                                           |
| <b>Principle of operation</b> | SmartLight mounting                                                |
| <b>Scope of delivery</b>      | Adapter plate<br>O-ring (2x)<br>Screw ISO 4762-M5x12 (3x)<br>Stand |
| <b>Short description</b>      | Stand                                                              |
| <b>Style</b>                  | Stand                                                              |
| <b>Use</b>                    | for Smartlight indicator                                           |

### Material

|                           |                   |
|---------------------------|-------------------|
| <b>Material</b>           | Aluminum          |
| <b>O-ring material</b>    | FKM 75            |
| <b>Surface protection</b> | anodized, natural |

### Mechanical data

|                      |               |
|----------------------|---------------|
| <b>Dimension</b>     | Ø 70 x 100 mm |
| <b>Mounting part</b> | Screw M5      |
