

Absorbents and Spill Control

Why is spill control important?

When a spill occurs, having a proper spill control program that enables a quick and effective response can not only help to protect the environment, but also supports a safe and productive workplace for your employees.

Brady SPC supplies products that help you comply with EPA and OSHA regulations. Why does that matter? Because the cost of non-compliance can have devastating effects on a business's reputation and financial performance.=

The EPA issued its final rule amending SPCC requirements under the authority of the Federal Water Pollution Control Act. This regulation became effective as of August 16, 2002.

The Poly-Edge Truck Mountable Spill Kit is designed to help you meet D.O.T. spill containment regulations.

Absorbents

Need-to-know regulations

The following OSHA and EPA regulations protect your employees and the environment:

29 CFR 1910.22(a)(2)

— Walking-Working Surfaces

The floor of every workroom shall be maintained in a clean and, so far as possible, a dry condition. Where wet processes are used, drainage shall be maintained, and false floors, platforms, mats, or other dry standing places should be provided where practicable.

40 CFR 112.7(c)(1)(viii)

— General requirements for Spill Prevention, Control, and Countermeasure Plans

Sorbent materials are included in the types of prevention systems that must be used for spill containment.

29 CFR 1910.120(j)(1)(vii)

— Hazardous Waste Operations and Emergency

U.S. Department of Transportation specified salvage drums or containers and suitable quantities of proper absorbents shall be kept available and used in areas where spills, leaks, or ruptures may occur.

OSHA's recent silica ruling

One of the most common compositions for granular absorbents is diatomaceous earth, which is 80-90% silica based. OSHA's recent final rule on limiting exposure to respirable crystalline silica was issued to curb lung cancer, silicosis, chronic obstructive pulmonary disease and kidney disease, all of which have been linked to high levels of silica. Rely on Brady SPC absorbent pads and rolls as safer, more efficient, non-silica solutions for absorbing leaks, drips and spills.

What is a SPCC Plan and do I need one?

A Spill Prevention Control and Countermeasure (SPCC) plan is a facility-specific, comprehensive plan outlining both the containment and countermeasures implemented to prevent a spill from occurring, and a series of response procedures in the event that one does occur. The SPCC plan addresses the following three areas:

- Operating procedures that prevent spills
- Control measures installed to prevent a spill from reaching the environment
- Countermeasures to contain, clean up and mitigate the effects of an oil spill that reaches the environment

Having an SPCC plan in place is an essential step to help companies avoid the costly impact of non-compliance, including fines as high as \$25,000 per day per violation.

Not sure where to start? Let SPC experts help

We understand that surveying a facility for potential trouble spots, proper absorbent usage and product selection can be time consuming and confusing. But, it is extremely beneficial.

• Free Absorbent Survey

Brady's absorbent survey is a free service designed to help you keep your employees and equipment safe. This detailed survey asks the right questions and identifies how Brady SPC and its distributors can provide solutions for the proper use of absorbents in the plant. Many organizations use these surveys as an "environmental audit" and keep them on file.

• Cost Savings Worksheet

Seeing is believing. This simple worksheet helps you compare the absorbents you are currently purchasing to our recommendations — quickly showing you the price difference and your cost savings.

selecting the right
absorbents for your
facility.**

Absorbents and Spill Control

Making the switch to absorbents

No facility is free from leaks, drips and spills. And, when it comes to keeping your employees and the working environment safe, you need a reliable and cost-effective absorbent solution.

Take a look at the comparisons below between clay granular, rags and SPC absorbent pads to determine what solution best fits your needs.

Clay granular

- **Pros:** Low cost per bag and product familiarity
- **Cons:** Messy, very low absorbency ratio (generally 1:1), labor intensive clean up and high disposal costs

Laundered rags

- **Pros:** Recycled and full system (products and disposal supported by the supplier)
- **Cons:** After each laundering, the rags lose some of their absorbency. Hard metals can never be completely removed, leading to significant health risks through exposure

SPC absorbent pads

- **Pros:** Absorb an average of 20x their weight in liquid, offer multiple configurations and constructions and lower disposal costs
- **Cons:** Higher up-front cost

Material details

	Clay granular (40 lb bag)	Rags (200 pads/drum)	SPC pads (100 pads/case)	
Gallons absorbed per week	20	20	20	gallons
Total material used	4 bags	170 rags	77 pads	per week
Total material costs	\$24	\$128	\$77	per week

Labor details

Labor hours for clean-up	1	0.3	0.3	hours/week
Total labor costs	\$20	\$7	\$7	per week

Disposal details

Drums disposed per week	1	(included)	0.15	per week
Total disposal costs	\$200	(included)	\$30	per week

Savings summary

Weekly cost	\$244	\$135	\$114	per week
Annual cost	\$12,688	\$7,020	\$5,947	per year
Total cost after 5 year	\$63,440	\$35,100	\$29,733	over 5 years

\$33,667 or 47% savings
When using SPC pads over clay granular

*Values shown are for example purposes only and are based on average costs in US dollars as published in 2016. Costs and savings may vary.

1 Step one: Know what you're absorbing

Water- or oil-based fluids

SPC recommends: Universal Absorbents

Use around machinery, under leaky pipes, in messy traffic areas or for general maintenance projects. Re-Form™ universal absorbents are made of recycled materials and offer an environmentally friendly solution.

Oil-based fluids outdoors/water repelling

SPC recommends: Oil-Only Absorbents

Specialized for oil and other petroleum-based spills including paints and non-water soluble chemicals, these absorbents do not absorb water and float indefinitely. Re-Form™ oil-only absorbents are made of recycled materials and offer an environmentally friendly solution.

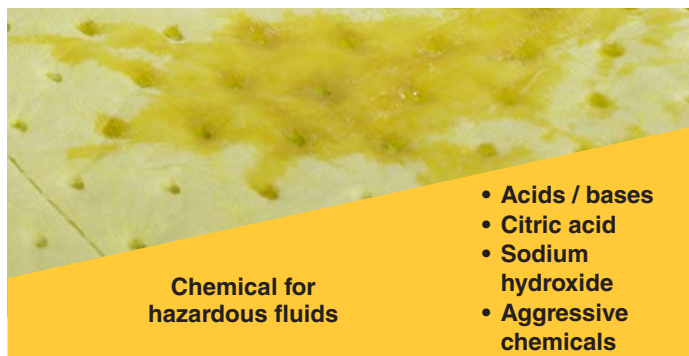

Hazardous chemical fluids

SPC recommends: Chemical Absorbents

Surfactant-treated polypropylene absorbents can be used on a wide range of chemicals, including hydrofluoric acid. They are chemically inert, so they will not react with aggressive fluids.

Keep in mind that absorbents take on the properties of whatever they absorb, so the bright color provides a visual indication to separate waste streams.

Looking to save time, effort and money?

Use a mid- to high-level universal product, like MRO100, as the standard in your facility. These absorbents can be used in a wide variety of applications and with a standardized absorbent, you do not have to manage the inventory of multiple items.

Absorbents and Spill Control

2 Step two: Identify your application

General purpose wiping, drips and leaks

SPC recommends: Pads, Rolls, Socs and Pillows

Pre-cut pads and perforated rolls provide easy access to absorbents for general purpose use around your facility. Use specialized SOC's and pillows around or underneath dripping equipment.

Heavy foot and forklift traffic

SPC recommends: Mats and Rugs

Mats and rugs offer greater durability to withstand harsh conditions. Barrier-backed options prevent liquid from penetrating the absorbent and reaching the floor underneath while printed mats warn of possible slip, trip and fall hazards.

Emergency spill response

SPC recommends: Spill Kits, Pallets, Drain Plugs

Spill kits bundle all of the necessary products to clean up an unexpected spill. Other spill containment options include spill pallets, drain plugs and storage centers.

Specialty absorbents

SPC recommends: Marine or Granular Products

Marine environments require boom, sweep and drag nets to remove fluids in, or near, bodies of water.

Granular absorbents are available when loose absorbents are preferred or when acid/base neutralization is required prior to spill clean up.

3 Step three: Select absorbent features

Coverstock

Durability of an absorbent increases with the addition of a coverstock layer.

- For simple drips or leaks, a 1-ply absorbent is all you need
- For wiping scenarios or foot traffic areas, a 3-ply absorbent will offer the necessary durability
- For abrasive applications, a pad with spunbond coverstock helps to reduce linting or tearing

3-ply construction
(2-sides coverstock)

Two layers of coverstock offer maximum durability and reduce linting or tearing.

2-ply construction
(1-side coverstock)

A single layer of coverstock offers medium durability and linting.

1-ply construction
(No coverstock)

Economical single-ply has lower durability resulting in high linting and tearing.

Absorbency weight

The absorbency weight can make a significant difference in how much product is required.

- For small spills, choose a light- or medium-weight product to avoid waste
- For large spills or continuous leaks, choose a heavy-weight product to reduce material use

Under-saturated

Absorbents aren't being used to their full potential. You're throwing money away!

Over-saturated

Absorbents aren't cleaning the whole spill. Increase the weight to get the job done with less product.

Dimpled surface

Dimpling increases product strength for areas requiring greater durability.

Smooth absorbents have greater surface area and are more absorbent per square inch compared to similarly constructed, dimpled products.

Non-dimpled

Offers more absorbent surface area.

Dimpled

Provides increased durability.

Perforations

Perforations provide a variety of size options by allowing you to quickly tear off exactly what is needed to contain the spill.

Single perforation

Featured on many pads and rolls

Double perforation

Featured on many rolls and mats

Triple perforation

Unique to the High Traffic Universal rolls

Universal Absorbency

Universal Absorbency for Water- or Oil-Based Fluids

All-purpose absorbents clean-up oils, coolants, solvents and water-based fluids anywhere in your facility.

Around machinery, under leaky pipes or fittings, in messy traffic areas, for general maintenance projects — they are your first choice for indoor spill control. Plus, their gray color masks spills and stains, helping you resist the urge to pick up the absorbent before it is fully saturated.

Liquids absorbed

- Coolants
- Solvents
- Oils
- Latex paint
- Gasoline
- Vegetable oil
- Kerosene
- Water-based fluids

Popular applications

- Wiping tools
- Small spills
- Under leaky pipes
- Around liquid storage containers
- Around machinery
- In messy traffic areas
- Under dripping valves
- General purpose maintenance

MRO Plus® Absorbents

- Brady SPC's number one universal absorbent and the standard in all-purpose, gray maintenance absorbents
- Universal absorbency handles most fluids (water, petroleum and chemical-based)
- 3-ply (MMM) meltblown polypropylene construction increases durability and reduces lint

Features

- For oils, coolants, solvents and water-based fluids
- Top and bottom coverstock (3-ply)
- High durability
- Medium linting
- Perforated and dimpled
- Gray color masks spills
- Heavy, medium and light weights
- Cost: \$ \$ \$

Recommended applications

- Anywhere there is a leak, drip or spill
- Production/machine areas
- Under assembly lines or equipment
- Maintenance areas and liquid storage areas

*Features Dispense-N-Dispose® System

GP “General Purpose” Absorbents

- Economical general purpose absorbents offer the look, feel and performance of a premium product
- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Efficient single-ply construction with MAXX® Technology — absorption and strength without the extra weight

Features

- For oils, coolants, solvents and water-based fluids
- No coverstock (1-ply)
- Medium durability
- Medium linting
- Perforated and dimpled
- Gray color masks spills
- Heavy, medium and light weights
- Cost: \$ \$

Recommended applications

- Anywhere there is a leak, spill or drip
- Ideal for industrial settings such as machine shops, maintenance or manufacturing
- Under leaky pipes and machinery

BASIC Universal Absorbents

- Value-priced universal all-purpose absorbent
- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Economical single-ply pads and rolls made of universal meltblown polypropylene

Features

- For oils, coolants, solvents and water-based fluids
- No coverstock (1-ply)
- Light durability
- High linting
- Perforated and dimpled
- Gray color masks spills
- Heavy and light weights
- Cost: \$

Recommended applications

- Anywhere there is a leak, spill or drip
- General industrial applications
- Manufacturing, printing and transportation

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity

Universal Absorbency

BattleMat® Absorbents

- Tough camouflage-patterned roll hides leaks and drips and is ideal for areas with moderate foot traffic
- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Durable 2-ply construction is ideal for use in high traffic areas — foot or forklift traffic
- Abrasion-resistant upper layer helps reduce linting while meltblown fibers grip the floor below

Features

- For oils, coolants, solvents and water-based fluids
- Camouflaged-printed top coverstock (2-ply)
- High durability and low linting
- Perforated
- Camouflaged pattern masks spills
- Cost: \$ \$ \$

Recommended applications

- Extra tough for foot and forklift traffic
- Walkways and high traffic areas
- Where there's a need to mask spills
- Under assembly lines, equipment or vehicles

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity
Rolls

HT "High Traffic" Absorbents

- Multi-use absorbent built for durability and high absorbency in "high traffic" areas
- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- 2-ply construction coverstock reduces linting and increases durability while meltblown fibers grip the floor below
- Printed safety message warns of slip, trip and fall hazards due to liquid spills

Features

- For oils, coolants, solvents and water-based fluids
- Top coverstock (2-ply) with safety message
- Medium durability and low linting
- Perforated and dimpled
- Heavy, medium and light weights
- Cost: \$ \$

Recommended applications

- Extra tough for foot traffic and walkways
- Printed safety message for areas where slips, trips and falls may occur

UXT “Xtra Tough” Absorbents

- Extra tough absorbents for applications that require high durability, non-linting and abrasion-resistance such as when wiping tools or machinery
- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- 3-ply construction with 2 sides of coverstock for maximum durability and minimal linting
- Extra strength allows for wringing and re-use

Features

- For oils, coolants, solvents and water-based fluids
- Top and bottom coverstock (3-ply)
- High durability and low linting
- Perforated and dimpled
- Heavy, medium and light weights
- Cost: \$ \$ \$

Recommended applications

- Wiping highly abrasive surfaces such as tools and machinery
- Machining, maintenance or food processing

Spill Response Plus Universal Absorbents

- Convenient, portable size perfect for employees to fold or carry in their pockets
- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Fine fiber coverstock on each side increases product versatility

Features

- For oils, coolants, solvents and water-based fluids
- Top and bottom coverstock (3-ply)
- High durability and medium linting
- Perforated and dimpled
- Heavy weight
- Cost: \$ \$

Recommended applications

- Anywhere there is a leak, drip or spill
- Janitorial and maintenance
- Hospitality and retail

Universal Absorbency

Re-Form™ Eco-Friendly Universal Absorbents for water- or oil-based fluids

Re-Form absorbent pads and rolls are eco-friendly, green products made of recycled materials. They feature the same universal absorbency as their polypropylene counterparts, making them ideal for coolants, solvents, oils and other water-based or petroleum-based fluids.

Re-Form absorbent materials have been tested to absorb 25-50% more than polypropylene materials, which means you'll use less product to absorb the same size spill.

Re-Form™ Pro Plus Absorbents

- The look, feel and performance of a traditional absorbent, but made from 90% recycled fibers. Supports corporate sustainability and LEED initiatives
- Universal absorbency to handle most fluids including water, petroleum and non-aggressive chemicals
- Durable 3-ply construction is made of 90% recycled materials
- Extremely absorbent: absorbs 20 times its weight

Features

- For oils, water-based fluid and non-aggressive chemicals
- Top and bottom coverstock (3-ply)
- Medium durability and medium linting
- Perforated and dimpled
- Heavy weight
- Cost: \$ \$ \$

Recommended applications

- Anywhere there is a leak, drip or spill
- Production/machine areas
- Maintenance areas

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity

Re-Form absorbents are not intended for use with aggressive chemicals.

Re-Form™ XPlus Absorbents

- A medium weight absorbent with meltblown coverstock on both sides for added durability making it ideal for leaks, drips, spills and areas with light foot traffic
- Universal absorbency to handle most fluids including water, petroleum and non-aggressive chemicals
- Durable 3-ply construction made from 80% recycled cellulose and absorbent rags
- Up to 50% more absorbent than comparable polypropylene absorbents
- Class A fire retardant

Features

- For oils, water-based fluid and non-aggressive chemicals
- Top and bottom coverstock (3-ply)
- Medium durability and medium linting
- Perforated
- Medium weight
- Cost: \$ \$ \$

Recommended applications

- Anywhere there is a leak, drip or spill
- General purpose absorbent
- Light foot traffic

Re-Form absorbents are not intended for use with highly aggressive chemicals.

Oil-Only Absorbency

Oil-Only Absorbency

Absorb oil- and petroleum-based fluids while repelling water

Oil-only absorbents are specially designed to clean-up oils and petroleum-based liquids while also repelling water and floating indefinitely.

Unaffected by temperature and impervious to rot and mildew, oil-only absorbents are an ideal choice for outdoor use, in bodies of water or anywhere that water may be inadvertently absorbed.

Liquids absorbed

- Drilling and cutting fluids
- Hydraulic and brake fluids
- Engine oils
- Transmission fluids
- Lubricants
- Gasoline, diesel and aircraft fuels
- Cooking oils
- Oil-based paints and solvents
- Other oils and petroleum-based fluids

Popular applications

- Outdoors
- Around bodies of water
- Wiping tools
- Small spills
- Under leaky pipes
- Around machinery
- Outdoor storage containers
- Under dripping valves
- Other general purpose maintenance

Oil Plus Absorbents

- Perfect for general everyday use and emergency spill clean-up
- Absorbs petroleum-based oils, solvents and other non-water soluble liquids
- Floats indefinitely even when saturated with oil
- 3-ply meltblown polypropylene construction increases durability and reduces lint

Features

- For oils, coolants, solvents and oil-based fluids
- Top and bottom coverstock (3-ply)
- Medium durability
- Medium linting
- Perforated and dimpled
- Floats indefinitely
- Heavy and medium weights
- Cost: \$ \$ \$

Recommended applications

- Anywhere there is a leak, drip or spill
- Fuel stations and automotive industries
- Precision engineering
- Printing industries

*Features Dispense-N-Dispose® System

SPC105 features blue coverstock on one side.

SPC® Oil Absorbents

- Brady SPC's best-selling oil-only pads for industrial or marine use
- Absorbs petroleum-based oils, solvents and other non-water soluble liquids
- Floats indefinitely even when saturated with oil
- Efficient single-ply construction of MAXX® absorbent technology — absorption and strength without the extra weight
- Packaged in a blue bag to streamline absorbent identification in your facility

Features

- For oils, coolants, solvents and oil-based fluids
- No coverstock (1-ply)
- Medium durability
- Medium linting
- Perforated and dimpled
- Floats indefinitely
- Heavy, medium and light weights
- Cost: \$ \$

Recommended applications

- Anywhere there is a leak, spill or drip
- Marine and environmental spills
- Oil refineries / fuel chemical
- General manufacturing

Oil-Only Absorbency

Specialty product:
For high abrasion

SXT® Oil-Only Absorbents

- Ideal absorbent when durability, abrasion resistance and low linting are required
- Floats indefinitely even when saturated with oil
- Durable 3-ply meltblown polypropylene construction with abrasion-resistant top and bottom coverstock layers
- Extra strength allows for wringing and re-use

Features

- For oils, coolants, solvents and oil-based fluids
- Top and bottom coverstock (3-ply)
- High durability and low linting
- Floats indefinitely
- Perforated and dimpled
- Heavy, medium and light weights
- Cost: \$ \$ \$

Specialty product:
For high static areas

Static Resistant Oil Absorbents

- Oil-only absorbents specially treated to resist static electricity build up around flammable liquid or delicate electronics
- Oil-only absorbency for petroleum-based oils, solvents and other non-water soluble liquids — making it idea for outdoor use
- Economical single-ply pads and rolls made of oil-only meltblown polypropylene
- Meets National Fire Protection Association specifications

Features

- For oils, coolants, solvents and oil-based fluids
- No coverstock (1-ply)
- Light durability and high linting
- Non-dimpled for max surface absorption area
- Heavy weights
- Cost: \$ \$ \$

Re-Form™ Oil-Only Absorbents

- Eco-friendly oil-only absorbent offering superior absorbency — absorbs more than 30 times its weight
- Floats indefinitely even when saturated with oil
- 3-ply construction with top and bottom coverstock, all made from 80% natural cellulose fibers
- Supports corporate sustainability and LEED initiatives
- Class A fire retardant

Features

- For oils, coolants, solvents, oil-based fluids and non-aggressive chemicals
- Top and bottom coverstock (3-ply)
- Medium durability and low linting
- Perforated
- Heavy weight
- Cost: \$ \$ \$

Re-Form Absorbents are not intended for use with highly aggressive chemicals.

Suitable for outdoor storage

Oil-only absorbents are specifically designed to repel water, which means they can be stored outdoors and will not be affected by the weather, fluctuating outdoor temperatures or moisture.

Chemical Absorbency

Color coded for when chemical-based fluids are present

Alert your employees to the presence of hazardous fluids with green and yellow chemical absorbents from Brady SPC. These surfactant-treated polypropylene pads and rolls can be used on a wide range of chemicals and are chemically inert, so they will not react with aggressive fluids.

Liquids absorbed

- Acids and bases
- Aggressive chemicals
- Sodium hydroxide
- Solvents
- Citric acid
- Water-based fluids
- Oil-based fluids
- Other unknown chemicals

Popular applications

- Anywhere hazardous chemicals may be present
- Bulk chemical storage containers
- Nuclear power plants
- Laboratories
- Hospitals
- Pharmaceuticals and any industry utilizing chemicals
- Chemical manufacturing
- To recognize chemical waste stream

BRIGHTSORB® High-Visibility Safety Absorbents

- Safety color and print make it ideal for areas where the risk of slips, trips and falls is greatest
- Chemical absorbency for areas where chemicals may be present
- Product will not react with aggressive fluids
- 2-ply construction increases durability and reduces lint
- Printed safety message warns of slip, trip and fall hazards
- Bright color warns of presence of leaks, drips or spills even in low light

Features

- Absorbs acids, bases, oils, chemicals, solvents, water-based fluids, unknown chemicals
- Safety printed top coverstock (2-ply)
- Medium durability
- Low linting
- Perforated and dimpled
- Heavy, medium and light weights
- Cost: \$ \$ \$

Recommended applications

- Areas with slip, trip and fall hazards
- Foot traffic areas
- Drips and spills involving hazardous chemicals
- Any industrial application utilizing aggressive fluids

Mats and Rugs

For foot and forklift traffic

Brady SPC absorbent mats and rugs keep aisles and walkways slip-free by absorbing and containing oils, liquids or other spills. They are designed to hold up under the toughest conditions and are ideal for high-traffic areas and workstations. Compared to an entrance mat, absorbent mats and rugs offer better traction and reduce the tracking of liquids from one area to another.

Liquids absorbed

- Bases and oils
- Chemicals
- Solvents
- Water-based fluids

Popular applications

- Heavy foot traffic
- Aisles and walkways
- Around workstations
- To reduce tracking liquids throughout facility

Specialty Product: Adhesive Backed

TOUGHSORB™ Permanent and Semi-Permanent Adhesive Mats

- Easy adherence for high-traffic aisles and walkways
- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Strong needle-punched polypropylene with an adhesive backing
- Permanent or semi-permanent adhesive backing adheres to surfaces to keep the absorbent in place and reduce slips, trips and falls

Features

- For oils, coolants, solvents and water-based fluids
- Adhesive backing (2-ply)
- High durability
- Low linting
- Heavy and medium weight
- Cost: \$ \$ \$

Recommended applications

- Aisles and walkways
- Areas with high foot and forklift traffic
- Lining entrances and exits
- Lining tool cribs and work surfaces

Permanent adhesive mat is protected by a clear liner that must be removed prior to use.

Semi-permanent adhesive mat can be applied and removed as needed making it ideal for work surfaces.

Barrier Spill Mat (BSM)

- Industrial rug with non-slip and leak-proof barrier backing for use in high-traffic areas and around workstations
- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Strong needle-punched polypropylene with a non-skid backing
- Durable for high traffic areas and helps eliminate slippery areas and unsightly tracking
- Tear-resistant and will not curl or buckle
- Non-skid barrier backing prevents liquid from reaching the floor underneath while tacky underside reduces slips, trips and falls
- Gray color masks spills reducing the urge to replace absorbents before fully saturated

Features

- For oils, coolants, solvents and water-based fluids
- Non-skid backing (2-ply)
- High durability
- Low linting
- Medium weight
- Cost: \$ \$ \$

Recommended applications

- Ideal for high-traffic industrial applications and in workstations
- Premium surface protection during renovation work

Rolls								
BSM100	Medium-weight rug	36 in. x 100 ft.	No	8	25	24	20	1/bale

BRIGHTSORB® High-Visibility Barrier-Backed Mat

- Absorbency, signage and durability all in one
- Universal absorbency to handle most fluids (water, petroleum and chemical based).
- Product will not react with aggressive fluids
- Non-skid, barrier-backed 3-ply construction with spunbond coverstock for durability
- Barrier backing prevents liquid from reaching the floor underneath
- Printed safety message warns of slips, trips and falls
- Brightly color-coded for safety and easy separation of hazardous waste

Features

- For oils, coolants, solvents and water-based fluids
- Safety-printed coverstock and barrier backing (3-ply)
- High durability
- Low linting
- Heavy weight
- Cost: \$ \$ \$

Recommended applications

- Areas with low visibility
- Lining aisles and walkways
- High-traffic areas prone to leaks, drips and spills

Need to know OSHA regulation

29 CFR 1910.22(a)(2) – Walking-Working Surfaces

The floor of every workroom shall be maintained in a clean and, so far as possible, dry condition. Where wet processes are used, drainage shall be maintained, and false floors, platforms, mats, or other dry standing places should be provided where practicable.

Mats and Rugs

High-Traffic (HT) Barrier-Backed Mat

- Universal absorbent with added durability to stand up to the toughest conditions
- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Non-skid, barrier-backed 3-ply construction with spunbond coverstock for durability
- Printed safety message reminds workers to use caution near high-risk slip, trip and fall areas
- Barrier backing prevents liquid from reaching the floor underneath
- Gray color masks spills, reducing the urge to replace them before they are fully saturated

Features

- For oils, coolants, solvents and water-based fluids
- Safety-printed coverstock and barrier backing (3-ply)
- High durability
- Low linting
- Heavy weight
- Cost: \$ \$ \$

Recommended applications

- Aisles and walkways
- High-traffic areas prone to leaks, drips and spills
- Areas where a subtle safety messaging is desired

Absorbents

TrackMat Matting

- The ultimate barrier absorbent for high-volume petroleum spills
- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Extremely durable absorbent with UV-resistant top layer makes it ideal for outdoor use
- Non-slip barrier backing prevents liquids from penetrating into the ground
- Dimples add durability and reduce linting

Features

- For oils, coolants, solvents and water-based fluids
- Non-slip barrier backing (2-ply)
- High durability
- Low linting
- Heavy weight
- Cost: \$ \$ \$

Recommended applications

- Where strength, absorbency and impermeability are needed
- Transportation companies
- Refineries and steel mills
- Railway or military

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity

Sorbent Industrial Rug (SIR)

- Designed for moderate traffic areas and workstations where there's a need for clean and safe work floors and walkways
- Universal absorbency to handle most fluids (water, petroleum and chemical-based)
- Durable, needle-punched polypropylene fibers for moderate traffic areas (1-ply)
- Eliminates slippery areas and unsightly tracking between the plant and office areas
- Gray color masks spills reducing the urge to replace absorbents before fully saturated

Features

- For oils, coolants, solvents and water-based fluids
- Needle-punched polypropylene (1-ply)
- High durability
- Low linting
- Heavy weight
- Cost: \$ \$

Recommended applications

- Vehicles repair and service
- Warehouse and container terminal
- Surface protection during renovation
- Marine spills/wildlife preservation

Rag Rug Matting

- Eco-friendly absorbent matting made from recycled cotton and polyester fibers
- Universal absorbency to handle most fluids (water-based and petroleum-based)
- Economy rug provides good footing, masks dirt and absorbs spills
- Ideal for maintenance, repair and industrial environments
- Eco-friendly construction supports corporate sustainability and Leadership in Energy and Environmental Design (LEED) initiatives

Features

- For oils, coolants, solvents and water-based fluids
- Recycled fibers (1-ply)
- Medium durability
- High linting
- Heavy weight
- Cost: \$

Recommended applications

- Ideal for high-traffic industrial applications and in workstations
- Premium surface protection during renovation work

Pillows

Absorbent pillows are ideal for use under spill pallets or machines and valves that are known to drip or leak. They are easy to retrieve, and can soak up fluids in hard-to-reach areas including sumps, catch basins and outdoor ponds.

- All-purpose universal pillows are suitable for water-based fluids
- Oil-only pillows absorb petroleum-based liquids while repelling water
- Chemical pillows absorb chemicals, acids and bases and are ideal for extra protection during packaging and transport

Absorbents

Marine Absorbents

High absorbency on the water

Brady SPC marine absorbents are specially designed to float on water and contain or absorb a wide variety of marine fuels and oils. From containment to booming and skimming operations, these absorbents soak up unwanted fluids on lakes, rivers, streams and coastal shorelines. Marine absorbent products are made for high absorbency and rapid deployment in demanding emergency situations.

Absorbent Booms

Brady SPC absorbent booms are designed to clean up oil spills on water by absorbing surface liquids.

Booms are constructed of highly absorbent polypropylene fibers encased in a durable skin that is lined with a heavy-duty tow rope. The booms are fastened with three stainless steel connectors to allow for linkage and fast deployment in emergency situations, as well as for strength during retrieval or when towing heavy booms saturated with oil.

Premium SPC Oil-Only Booms

- Oil-only booms absorb oil- and petroleum-based liquids while repelling water and floating indefinitely
- Strong, lint-free and gapless
- SPC5510 features two 5 in. x 10 ft. booms attached side by side for a double layer of absorption

Economical ENV® Oil-Only Booms

- Oil-only booms absorb oil- and petroleum-based liquids while repelling water and floating indefinitely
- Features interconnectivity and a lint-free blue sleeve

Universal Plus Chemical Booms

- Universal Plus booms absorb water-, oil- and chemical-based liquids
- Can be deployed indoors or outdoors

Premium SPC Oil Booms

SPC5510 features booms attached side by side for double absorbency

Containment Booms

- Designed to work as a containment barrier in order to keep oil spills on water from spreading
- Ideal for use in holding ponds to retain waste and debris on the surface of the water

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity
CB612	Boom	6 in. float, 12 in. skirt, 100 ft. sections	200	3	1/case
CB305	Boom	3 in. float, 4.5 in. skirt, 25 ft. sections	22.5	11	1/case

Designed as a containment barrier to prevent spills from spreading

Sweeps and Pillows

- Sweeps feature a 2-ply construction with durable blue coverstock for extra strength (for use with oil- and petroleum-based fluids)
- Help skimming operations by effectively removing surface oil from the water
- 100 ft. sections are ideal for dragging behind or connecting between two ships

Catalog #	Type	Size	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity

Granular and Neutralizers

Loose, multi-purpose absorbents

Granular absorbents are loose, multi-purpose absorbents used for liquid spill clean-up, lab packing and stabilization of free liquids. This option is ideal for facilities that prefer or require the use of traditional granular absorbents.

The small, loose particles of a granular absorbent make it ideal for applications where a pad or roll would not offer a proper fit. In instances where a liquid spills on a rough surface, a granular absorbent can absorb liquids from the cracks and crevices.

Need to know

OSHA silica ruling:

One of the most common compositions for granular absorbents is diatomaceous earth, which is 80-90% silica based.

OSHA's final rule on limiting exposure to respirable crystalline silica was issued in 2016 to curb lung cancer, silicosis, chronic obstructive pulmonary disease and kidney disease. All of which have been linked to high levels of silica.

SpillFix® Granular Absorbent

The new standard in loose absorbents

- Completely natural — no carcinogens, no dust indoors; landfill and incinerator safe outdoors
- Highly effective — absorbs hydrocarbons, chemicals and water-based solutions
- Workplace friendly — natural construction prevents damage to equipment or floors; a regular occurrence with clay-based granulars
- Deploy indoors or outdoors to clean up spills in hard to reach areas

SpillFix granular absorbs 4 times the liquid of traditional clay granulars

SpillFix Granular Absorbent

- Premium absorbent solution constructed of 100% recycled material
- Lightweight and easy to deploy

Catalog #	Type	Size	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity

Drain Protection

EPA regulations require that facilities prevent fluids from entering the environment. To effectively prevent run-off from reaching storm drains, make sure to have the appropriate drain protection on hand.

Drain Plugs

- Conical-shaped drain plugs made from chemical-resistant PVC keep spills from entering the drainage system and feature a "metal eye" for easy insertion or removal. Then rinse and re-use when finished.

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity

PLUG3	Drain plug	3 in.	3	50	1/case
PLUG2	Drain plug	2 in.	2	50	1/case

Drain Seals

- Resists water, oil and most aggressive fluids
- Easy application; soap and water clean up for re-use
- SLIKSTOPPER drain seals are made from flexible, chemical resistant PVC and help prevent spills from flowing into drainage systems
- Spill Magnet Seals are backed with a strong magnet to tightly seal drains

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity

Drip Pans and Mats

SPC spill containment products are designed with efficiency in mind — keeping your employees and work environment safe from unexpected drum spills or leaks.

Drip Pans

- Durable, low profile, polyethylene drip pans easily fit under leaky drum spigots and other problem areas
- Pan and universal fill captures up to 3/4 of a gallon of liquid

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity
DPA24	Drip Pan	10 in. x 10 in.	6	20	24/case

Drip Pad

- Provide additional durability to your pads for tougher environments
- 22 oz pad is made of flexible PVC
- 30 oz pad is made of XR5 for additional strength under the toughest conditions
- Grommet included to allow pad to be tied down

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity
DRIP1720-Y	22 oz pad	17 in. x 20 in.	2	n/a	1/each
DRIP1720-B	30 oz pad	17 in. x 20 in.	2	n/a	1/each

Spill Decks

- Low profile, 21.2-gallon capacity, 2-drum spill decks
- Contain hazardous leaks in your drum storage and dispensing areas
- Built-in clips easily connect multiple decks — creating a 4, 6, 8 or more storage platform

Catalog #	Type	Size	Absorbency Capacity (gal)	Load Cap. (lbs)	Shipping Wt. (lbs)	Pallet Qty.	Quantity
SC-SD2	2-drum spill deck	26 in. x 52 in. x 6 in.	21.2	2,500	31	15	1/each

Spill Pallets

- Comply with governmental secondary containment regulations
- Capacity up to 128 gallons
- 2-drum or 4-drum configuration

Catalog #	Type	Size	Absorbency Capacity (gal)	Load Cap. (lbs)	Shipping Wt. (lbs)	Pallet Qty.	Quantity
SC-DP4	4-drum pallet	52 in. x 52 in. x 17 in.	128	2,200	89	10	1/each
SC-DP2	2-drum pallet	26 in. x 52 in. x 17 in.	68	1,100	46.5	10	1/each
SC-DPR	Pallet ramp	32.5 in. x 70 in.	n/a	650	47.5	3	1/each

Easy loading ramp (sold separately) works with both the 2-drum and 4-drum spill pallets.

Absorbents and Spill Control

Spill Berms

These collapsible secondary containment berms can be used to contain spills and leaks from vehicles, machinery, tanks, drums and other industrial equipment.

Foam Side Wall Berm

- Portable, lightweight, flexible — folds up for storage and transport
- Re-useable berm is easy to clean and maintain
- Requires no assembly, tools or inflation — unfold and use immediately

Catalog #	Type	Size	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Quantity
FW181804-Y	Foam berm	18 in. x 18 in. x 4 in.	5	2	1/each

Absorbents and Spill Control

Emergency response spill kits to handle any type of spill

Accidents happen, so it's better to be prepared. Brady SPC offers a complete selection of spill kits in a variety of types and sizes to equip you with everything you need to clean-up spills when they occur. Quickly and easily clean-up oils, solvents, coolants and other fluids. They are ideal for fast response to critical accidents.

Liquids absorbed

Universal	For oil, water-based and chemical liquids
Oil Only	For oil and petroleum-based liquids
Mixed (Universal and Oil Only)	For indoor / outdoor use. Kits contain both all-purpose universal absorbents and water-repellent oil-only absorbents for petroleum and oil-based liquids
Chemical	For aggressive and hazardous liquids
BRIGHTSORB® High-Visibility Safety Absorbents	For all liquids. Bright safety messaging signals to those in and around the spill containment area to exercise caution
Re-Form	Universal absorbents that are eco-friendly
TAA Compliant	Complies with the Trade Agreements Act

Trade Agreement (TAA) Compliant Kits

GSA Schedule Contracts are subject to the Trade Agreements Act (TAA), meaning all products listed on the GSA Schedule Contract must be manufactured or "substantially transformed" in a "designated country." The designated countries are comprised of:

- World Trade Organization government procurement agreement countries
- Free trade agreement countries
- Least developed countries and Caribbean basin countries

Where should Spill Kits be located?

Worker productivity and efficiencies can be improved dramatically by strategically placing spill kits or absorbent storage centers around the facility, closer to areas of need. For both emergency response and routine maintenance and safety, employees should not be wandering away from their workstation to the other side of the plant or tool room to find the absorbent materials they need.

Refills make restocking quick and easy

A critical step after a spill is cleaned up is to restock your spill kit in preparation for future spills. Many of the spill kits from Brady SPC have refills available, making it easy for you to restock with the appropriate products and quantities.
