

The H300111 item may be replaced by Part Number E300131 if the following differences are acceptable:

1. Cross has a rated voltage of 700V
2. Cross has oval mounting holes, not slots (mounting center to center is still 80mm)
3. Cross has a blown fuse indicator which is clocked 90 degrees off (may cause problems if the original fuses were mounted near each other)
