

Commander C200 & C300 Frames 1-4 Temporary Color Change

Some Control Techniques Commander C200 and C300 green drives frame sizes 1 to 4 will be temporarily supplied with some gray colored parts.

Frame sizes 1 and 2 front and side views

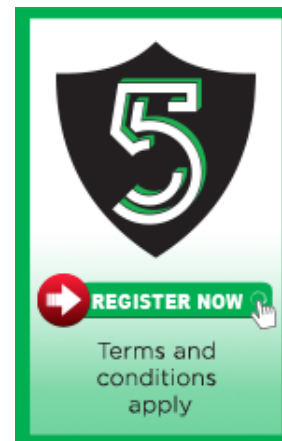

The box product labels of drives that are constructed using both grey and green plastics have an orange circle in the top right-hand corner.

This change has no effect on the drives performance or warranty.

These drives have the same free, five-year warranty available as the rest of the Commander C range of general-purpose drives.

Anyone who purchases a drive from the Commander C range must register in order to extend the products' warranty from two years to five, at no extra cost online by registering their product on the [Commander C 5-Year Warranty page](#).

For further information on the Commander C series of AC drives please visit the [Commander C product page](#).
