

## Features and Benefits

### Unbeatable Corrosion Resistance

- In environments like Food and Beverage, corrosion must be avoided to limit contamination
- Smooth finish on fittings enhance the corrosion protection
- Self healing properties of stainless steel fittings help reduce the penetration of rust/corrosion and eliminate damage to the fitting
- Perfect for highly corrosive environments like mining, marine, and wastewater treatment plants

### Extreme Strength/Impact Resistance

- Stainless steel fittings retain their strength in extreme heat and extreme cold conditions

### Aesthetic Appeal

- Fitting surface is easy to maintain and keep clean
- Stainless steel fittings provide a modern and attractive look throughout the facility

### Wash Down Capabilities

- Easy cleaning capabilities make these fittings perfect for food processing and other hygienic areas where washdowns are common

### Cost of Ownership

- Superior strength and durability greatly reduce replacement of fittings. This will lower your total cost of ownership and increase your return on investment

### 100% Recyclable / Environmentally Friendly

- Stainless steel fittings do not require harsh environment-damaging cleaners to keep them looking like new
- Provides an opportunity for your facility to *think green!*

**C Outlet Body, Gasket and Cover**

# Condulet® Stainless Steel Conduit Bodies, Covers and Gaskets

*One hundred years after the introduction of the Condulet®, Cooper Crouse-Hinds remains the leader in conduit outlet bodies and boxes*

## Features:

- Conduit hubs have tapered threads and feature integral bushing for protection of wire insulation
- Outlet bodies designed to match conduit size for neat, compact installations

## Application:

Conduit outlet bodies are installed in conduit systems to:

- Act as pull outlets for conductors being installed
- Provide openings for making splices and taps in conductors
- Act as mounting outlets for lighting fixtures and wiring devices
- Connect conduit sections
- Provide taps for branch conduit runs
- Make 90° bends in conduit runs
- Provide for access to conductors for maintenance and future system changes

## Standard Materials:

- Bodies - 316 stainless steel
- Covers - 316 stainless steel
- Cover Screws - 316 stainless steel
- Gasket - neoprene

## Certifications and Compliances:

- UL rated E15022 425B
- Raintight - when installed with cover and gasket
