# CROUZET AUTOMATION SELECTION GUIDE

# ABOUT CROUZET AUTOMATION

Supported by an experienced technical team, Crouzet Automation is a pioneer in the simplification of programming. The brand offers the easiest-to-use and most adaptable alternative automation solution for specialized and demanding needs.

Crouzet Automation is a brand of InnoVista Sensors™.

**InnoVista Sensors™**: your trusted partner of choice to face industrial challenges of today and tomorrow.

**InnoVista Sensors™** is a worldwide industrial specialist of sensors, controllers and actuators for automated systems.

Through its brands, Crouzet Aerospace, Crouzet Automation, Crouzet Control, Crouzet Motors, Crouzet Switches and Systron Donner Inertial, **InnoVista Sensors™** offers a wide range of reliable, efficient and customizable components dedicated to the Aerospace & Defence, Transportation and Industrial market and segments.

Thanks to the recognized expertise of its teams and a strong innovation policy, **InnoVista Sensors™** brings performance enhancing solutions to its customers worldwide.

# ADAPTATION WHEEL

To meet market expectations and provide customers with the right solutions within the shortest timeframes, Crouzet Automation has structured its processes around different types of products: standard products, adapted products and products specially developed for a customer. Introducing the adaptation wheel...

## 1 STANDARD COMPONENTS

A complete range of logic controllers immediately available to create your automation application.

## 2 COMPONENTS WITH ADDED VALUE

Standard products complemented by factory-mounted auxiliaries or accessories (connectors, wire outputs, cables, etc.) in order to assist integration into your equipment, simplify your logistics and maximize the reliability of your installation.

## 3 ADAPTED PRODUCTS

Defined jointly with our technical sales teams, these adapted products offer the exact performance and functions you need for your application.

## 4 SPECIFIC PRODUCTS

All our design and industrialization expertise in automation systems at your service, to design and create specific products dedicated to your application.

# WHICH SOLUTION DO YOU NEED?

**em4** is more than just a nano-PLC: it is a leading edge device supported by best-in-class tools that enables you to create and implement the smartest automation applications with **em4** soft.

NANO-PLC

## em4 remote

The first all-in-one solution to bring your application into the Internet of Things

Remotely manage your equipment and application programs

Remotely display or control data values with an app/web platform

Periodically receive data log reports by email or FTP

Receive and manage notifications when an event occurs in your application

## em4 alert

The PLC which sends alerts via SMS, stores data logs in .csv (Excel) and sends them by email or FTP

Remotely display or control data values with SMS

Receive an SMS or an email when an event occurs in your application

## em4 local

The **em4** for stand alone use or local area network

Embedded configurable 0-10V/4-20mA accurate analog inputs

Powerful & up to 24 analog inputs included

Modbus RS485 slave interface option for connection to MTP Touch HMI

The **Millenium 3 Smart** logic controller is the easiest programmable module to use on the market. Easy to program thanks to M3 Soft, it enables the control and monitoring of machines and automation installations with up to 50 I/Os.

LOGIC CONTROLLER

## Smart Expandable

Offers a large variety of expansions (digital, analog I/Os...), up to 50 I/Os

Smart Expandable

## Smart Compact

The easiest logic controller to implement, to program and to use on the market

Smart Compact

## Essential

The right product to tackle simple applications that still require a powerful logic controller

Essential

Application example

Access Control

Millenium 3 offers both standard and customized product solutions for a range of applications, including automatic barriers, automatic doors, turnstiles, sectional doors and disabled access ramps.

## em4 soft

The most intuitive programming software on the market

## em4 web

Provides powerful application and device management

## em4 app

The ultimate way to control and monitor your em4 from your smartphone

## em4 remote

## em4 alert

## em4 local

### Application example

### Water treatment

With the capability to manage pump circulation, monitor liquid levels, and measure the temperature and conductivity of water, em4 can help you take your application to the next level.

\* The 3G and Ethernet versions will be available in 2016.

## M3 soft

The M3 Soft is a high-performance software platform used to program the Millennium 3 logic controller and optimize design times.

Digital expansions  
(up to 50 I/Os) & analog  
(0-10V, 4-20mA, Pt100)

50 I/Os  
0-10V  
4-20mA

Modbus RTU and  
Modbus TCP/IP  
expansions

Additional application  
specific functions (autotuning  
PID, astronomical clock, ...)

Direct connection of NTC  
temperature probes and LDR  
luminosity sensors

Enhanced visibility on the  
display with high contrast,  
blue back lit LCD screen

Extended temperature  
range (-20 °C to +70 °C)

Powerful and  
cost effective

Bluetooth® connection  
accessory for all the range for  
applications that are complex  
in terms of access

# WHICH SOLUTION DO YOU NEED?

The Millenium 3 logic controller and the **em4** nano-PLC are the easiest to use programmable modules for various applications. With simple and intuitive software, controlling and monitoring of machines and automation installations is incredibly simple.

## Millenium 3 Smart Expandable

Offers a large variety of expansions (digital, analog I/Os...), up to 50 I/Os

- › Expandable versions: 10 I/Os and 26 I/Os
- › With or without display, in 24 V $\overline{\text{--}}$ , 12 V $\overline{\text{--}}$ , 24 V $\sim$  and 100  $\rightarrow$  240 V $\sim$  versions

Multiple configuration options derived from an extensive product range with numerous accessories

Millenium 3 toolbox

M3 soft

50 I/Os

Digital expansions up to 50 I/Os

0-10V  
4-20mA

Analog 0-10V, 4-20 mA, Pt100 expansions

Modbus RTU and Modbus TCP/IP expansions

Highly visible blue LCD

Direct connection of NTC temperature probes

Additional application specific functions

Extended temperature range (-20 °C to +70 °C)

Bluetooth® connection accessory

## Millenium 3 Smart Compact

The easiest logic controller to implement, to program and to use on the market

- › Compact versions: 12 I/Os and 20 I/Os
- › With or without display, in 24 V $\overline{\text{--}}$ , 12 V $\overline{\text{--}}$ , 24 V $\sim$  and 100  $\rightarrow$  240 V $\sim$  versions

Application-specific solutions thanks to dedicated and easy to use specific function blocks

Millenium 3 toolbox

M3 soft

Highly visible blue LCD

Direct connection of NTC temperature probes

Additional application specific functions

Extended temperature range (-20 °C to +70 °C)

Bluetooth® connection accessory

## Millenium 3 Essential

The right product to tackle simple applications that still require a powerful logic controller

- › Compact versions: 12 I/Os and 20 I/Os
- › Expandable versions: 10 I/Os and 26 I/Os
- › With or without display, in 24 V $\overline{\text{--}}$ , 12 V $\overline{\text{--}}$  versions

The Millenium 3 Essential range is the cost effective solution for simple applications

Millenium 3 toolbox

M3 soft

Powerful and cost effective

50 I/Os

Digital expansions up to 50 I/Os

0-10V  
4-20mA

Analog 0-10 V, 4-20 mA, Pt100 expansions

Modbus RTU and Modbus TCP/IP expansions

Simplified Bluetooth® connectivity

## em4 remote

The first all-in-one solution to bring your application into the Internet of Things

- › First PLC capable of fleet management including map localisation
- › Highly secured solution, using e-banking practices and infrastructure
- › Expandable from: 26 I/Os up to 46 I/Os

SIM card (2G & 3G versions) & remote management subscription included for one year (em4 web, em4 app)

### em4 toolbox

em4 soft

em4 web

em4 app

Machine / Equipment fleet management

Advanced event management

Secured platform and connections

Advanced data history

Device maintenance & management

Advanced monitoring and control functions

Map localization

Advanced remote services for your customers

Automatic clock synchronization

Customizable web interface

## em4 alert

Nano-PLC that can alert you via SMS and email

- › Needs only GSM network to operate (SMS)
- › Secured solution, only users identified in the PLC can interact
- › Expandable from: 26 I/Os up to 46 I/Os

No need to perform complicated integration between the PLC and a modem/gateway

### em4 toolbox

em4 soft

Event management via SMS and email

Monitoring and control functions via SMS

Data report via SMS and datalogs via email or FTP

PLC to PLC SMS communication

Remote application program update

Remote directory management

## em4 local

The em4 for stand alone use or local area network

- › The most compact and powerful of its category
- › Includes highly accurate 4-20 mA analog inputs for industrial sensors
- › Expandable from: 26 I/Os up to 46 I/Os

Easily swap from one version to another version (remote and alert), enabling the upgrade of the equipment

### em4 toolbox

em4 soft

PLC with local functions only

Modbus RS485 slave option interface

0-10V 4-20mA  
Embedded configurable 0-10V/4-20 mA accurate analog inputs

The most intuitive graphical function block language

Modbus TCP/IP  
Modbus TCP/IP client and server

\*

\* The 3G and Ethernet versions will be available in 2016.

# SELECT YOUR CONTROLLER

Our products are specifically suited for integration in a wide range of applications.

## Millenium3

- Highly visible blue LCD with 4 lines of 18 characters and configurable backlighting
- Allow the use of the entire library of specific function blocks in the software workshop
- Extended temperature range (-20 °C to +70 °C)
- Analog inputs 0-10 V $\sim$ , Potentiometer, NTC, LDR (0-20 mA/Pt100 with converters)

Smart

Essential

## em4

- Save time designing your application and remote functions using the most intuitive graphical function block language on the market
- Accurately measure your high end industrial sensors with the embedded configurable analog inputs (including 4-20 mA)
- Easily integrate one of our three high tech designs in your machine
- Adapt your application during its lifecycle thanks to the enhanced controlling performances

Glossy black

	Millenium 3 range	em4 range

# COMPLETE YOUR EXPERIENCE!

Sensors, power supplies, converters, remote screens and communication accessories offer solutions to control your automation systems with the greatest ease of use.

## MOST INTUITIVE PROGRAMMING SOFTWARE ON THE MARKET

### Simple

- › Quick, simple and intuitive programming which does not require specialist knowledge
- › Self-teaching made easier thanks to a user-friendly online help guide and programming examples
- › A simulation mode that consistently represents controller operation

### Powerful

- › A complete range of more than 100 function blocks
- › All basic functions: counting, timing, comparison, display, logic, gain, sin/cos, etc. are also available
- › A wide range of dedicated functions: pump rotation, PID regulation, movement, pressure, level, water ratio, solar tracking, and flow

### User-friendly and ergonomic

- › Software available in 5 languages: English, French, Italian, German and Spanish
- › Function block programming is fun and very visual
- › Programming languages:
  - FBD (Function Bloc Diagram)
  - SFC (Sequential Function Chart/Grafcet)
  - LD (Ladder Diagram) only on M3 soft

### User-definable and effective

- › Possibility of creating and saving custom macros allowing the user to simplify programs
- › Possibility of locking macros with a password for greater security

### Download your software:

Download  
M3 soft

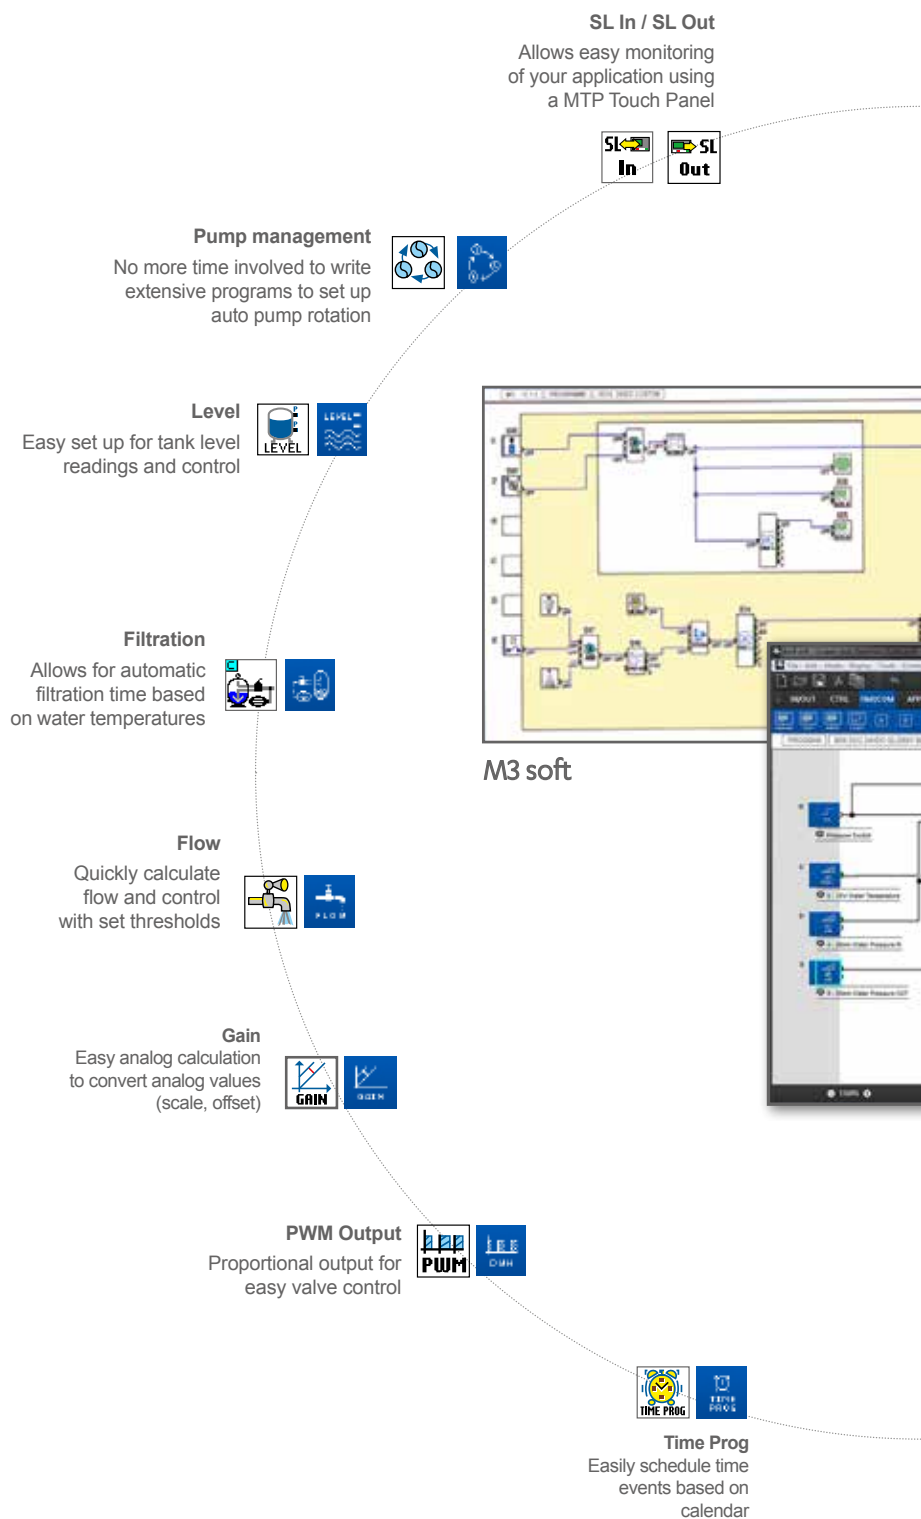

Download  
em4 soft

## M3 SOFT

M3 Soft is the easiest programming software to use on the market. It is also incredibly powerful and user-friendly. Thanks to the most comprehensive library of application-specific function blocks in the industry, it allows you to customise your applications.

M3 soft  
Function blocks

# em4 SOFT

4

em4 soft integrates all the remote management features in a single tool. Based on our strong experience in Millenium programming software development, em4 soft is the new easy-to-use programming tool dedicated to em4.

## em4 soft Function blocks

### Event

Allows up to 24 events  
SMS/email messages including 2  
attached analog values

### Data Logging

Allows up to 3 blocks of 8 values  
to be logged at a specified time  
interval or on command signal

### Monitoring

Allows easy remote  
monitoring and control of  
your application

### 32 bit function blocks

Allows high speed  
count, tachometer,  
power management,  
calculation with  
32 bit values

### Display

Large 4x18 character  
display allows user to  
visualize text, status,  
times and control values in  
the program

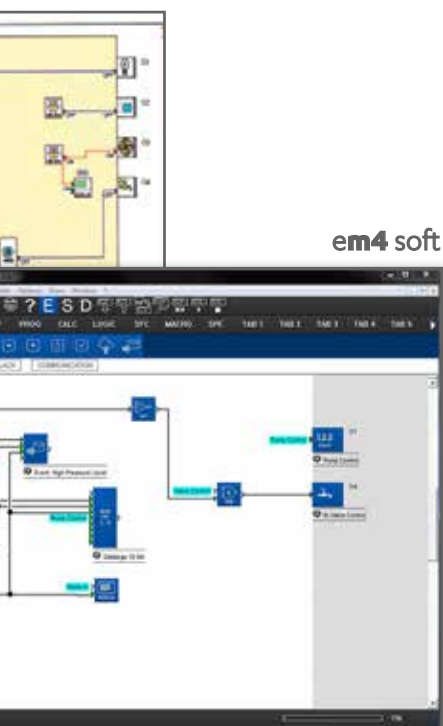

### PID Regulator

Will interface with water  
booster drives for pressure  
needs based on demand

### Sunset / Sunrise

Calculate the sunrise and  
sunset time

em4 soft

# em4 WEB

With em4 remote, your equipment gets the simplest access to the Internet of Things

- The **em4 web** provides you with a powerful **device management** web-based platform.
- There is no need to configure the communication: log on, identify your **em4** remote and instantly get connected!
- It allows you to easily manage your **em4** fleet on demand:
  - manage your access rights, as well as your customers
  - **download** your application program or firmware
  - **monitor** and control your devices
  - **locate** them on a map
  - display your **data history**
  - receive **event notifications** by email and SMS

Last but not least, it implements the latest security systems and protocols.

## Map localisation

Google

Your em4 fleet available anywhere, anytime

# em4 APP

The em4 simply enters your smartphone

- Mobile complement to the **em4** web, the **em4** app is the ultimate way to control and monitor your **em4** from your smartphone.
- It uses a **fully secured** and **optimized infrastructure** to ensure total protection of your data.
- Simply log in, scan the QR code on the product, and instantly begin **monitoring** and **controlling** your device.

# MAKE UP YOUR OWN SOLUTION

## Connection accessories, tools and programming software

	Part number	Description
	88 970 111	M3 Soft: Millenium 3 programming software (CD-ROM)
	88 970 108	Memory cartridge for transfer and saving of programs
	88 970 102	3 m serial link cable: PC DB9 F → Millenium 3
	88 974 104	Millenium 3 → Bluetooth® interface (class A 10 m)
	88 970 109	3 m USB link cable: PC → Millenium 3
	88 970 110	Bluetooth® adaptor → USB (class A 10 m)
	88 970 123	1.80 m serial link cable: DB9 M/DB9 F
	88 970 510	0.5 m serial link cable: Millenium 3 → DB9 M
	88 974 106	Ready to use Millenium 3 Smart democase including: - a CD12 Smart, a CTN probe, a LDR probe, an I/O simulator - a 3 m USB link cable: PC → Millenium 3, a M3 Soft CD - a power supply 110-230 V~

### Millenium 3 Virtual Display

Android smartphone and tablet as well as Windows XP/7 PC application

### Man/Machine interface

TFT-LCD compact 4.3" and 7" resistive touch panels - MTP6/50, MTP8/50 & MTP8/70

Plug & Play remote LCD displays/keypads

Remote LED display - Input 0-10 V

### Temperature probes and light sensors

NTC Temperature probes

LDR Light sensors

0-10 V Temperature sensors

Temperature probes Pt100 & Thermocouple

### Temperature and signal converters

Thermocouple Pt100/Pt1000 → 0-10 V

PWM to 0-10 V/4-20 mA to 0-10 V

### Other accessories and kits

Standard Smart and Essential product kits

Removable connectors

Potentiometer Ø 22 mm

Faceplates

	Starter kit em4 local Ethernet				✓	88 981 136**		
Evaluation cases							The ready-to-use evaluation case includes:	
	Evaluation case em4 remote 2G*		✓			88 980 185	<b>The starter kit (description above)</b> <b>The power supply 110-230 Va with Europe and US adaptor</b> <b>The simulator PCB for the 16 Inputs with switches, potentiometers and terminals to connect your sensor for evaluation</b> <b>The simulator PCB for the 10 Outputs with 11 LEDs and terminals to connect the 2 static outputs to a device for evaluation</b>	
	Evaluation case em4 remote 3G*			✓		88 980 186**		
	Evaluation case em4 remote Ethernet*				✓	-		
	Evaluation case em4 alert 2G		✓			88 980 181		
	Evaluation case em4 alert 3G			✓		88 980 182		
	Evaluation case em4 local	✓				88 980 180		
	Evaluation case em4 local Ethernet				✓	-		

\* em4 remote 2G, 3G and Ethernet include the first year of subscription to em4 remote access (em4 web & em4 app), with a SIM card for the 2G and 3G versions.

\*\* The 3G and Ethernet versions will be available in 2016.

Product description	Inputs	Outputs	Glossy black
<b>Expansions</b>			
em4 digital expansion E10R	6 digital inputs (configurable as analog 0-10 V or potentiometer)	4 digital outputs (2 relays 6 A and 2 relays 8 A)	88 982 113
em4 analog expansion E10A	6 digital inputs (configurable as analog 0-10 V / 4-20 mA)	4 outputs (2 static 0.5 A PWM and 2 analog 0-10 V)	88 982 213

Product description			Part number
Interfaces	em4 USB interface black		88 980 110
	em4 interface RS485 Modbus slave black		88 980 120
Accessories	em4 Set of I/O simulator for bases		88 980 150
	Antenna 3 m standard		88 980 160
	Antenna 3 m int/ext flat		88 980 161
	Antenna 10 m ext		88 980 162
	USB cable 3 m B type		88 980 170
	em4 soft (USB key)		88 980 140
Power supplies	Modular power supply 24 V--- 7.5 W		88 950 303
	Modular power supply 24 V--- 15 W		88 950 304
	Modular power supply 24 V--- 30 W		88 950 307
	Modular power supply 24 V--- 60 W		88 950 302

Description	Key features	Part number
<b>Programmable touch panels</b>		
MTP6/50 user kit*	- 4.3" color touch panel - Modbus RS232/RS485 serial port - USB port	88 970 492
MTP8/50 user kit*	- 4.3" color touch panel - Modbus RS232/RS485 serial port - Ethernet TCP/IP port	88 970 494
Cable em4-MTP6/50 & MTP8/50	For use with em4 interface RS485 Modbus interface (88 980 120)	88 980 171
MTP8/70 user kit*	- 7" color touch panel - 2x Modbus RS232/RS485 serial port - USB port, Ethernet TCP/IP port	88 970 496
Cable em4-MTP8/70	For use with em4 interface RS485 Modbus (88 980 120)	88 980 172
MTP6/50 - MTP8/70 programming kit (USB)	- USB - Mini USB cable - EB Software (CD)	88 970 501
MTP8/50 - MTP8/70 programming kit (Ethernet)	- Ethernet crossover cable - EB Software (CD)	88 970 502

\* em4 cable not included in User Kit

# PERFECTLY MATCH ALL OF YOUR REQUIREMENTS

Crouzet Automation has identified six major applications for which Millenium 3 and em4 are particularly suitable:

## ACCESS CONTROL

Control opening and closing of doors. Allow or restrict access with automatic detection, on a timer, or on certain days/time.

## TEMPERATURES

Management of various parameters such as heating, cooling, fluid temperatures, operation, calendar-based function, frost protection mode, alarm management, etc.

## WATER TREATMENT

Managing circulation pumps, monitoring levels, temperature and conductivity of the water. Irrigation control based on temperature, humidity, and day/night cycle

## SMALL INDUSTRIAL MACHINES

Controlling the motor that unrolls the packing film. Controls cutting of the film after heat sealing and monitors the duration of the motor cycles. Controlling heat sealing times on blister packs, packaging bags, etc.

## SOLAR WATER HEATING

Automation of operation and heating regulation, remote management of the installation.

## LIGHTING

Managing flashing on illuminated signs
