

PRODUCT CHANGE NOTIFICATION

PCN No.: PCN200601

This Product Change Notification serves to inform the Purchaser and Consumer of certain design and or specification changes, described herein, that Crydom will make to its line of Solid State Relay model numbers indicated in the attachment and in accordance with the described time line.

Issue Date: June 22nd 2020

Effective Date: June 23rd 2020

Subject:

Temporary color change on plastic cover for Crydom Gen 4 models without LED

Scope:

Due to a mistake from our supplier we received plastic covers in a different color (dark gray) from the specified color (black) for our Crydom branded Gen 4 models without an LED. The supplier has been notified, but we currently have a shortage of this cover to keep producing the affected products.

Description of Changes:

For a short period of time we will be shipping some Gen 4 models with a dark gray cover and a black housing, as shown in the picture below:

This will allow us to keep producing these models in the meantime that we get covers in the right color (black). All the product electrical and mechanical specifications will remain unchanged.

As soon as we receive additional covers we will resume production of the affected products fully in black.

Applicability:

Design/Specification changes described herein apply only to specific models produced as of the effectivity date indicated in the PCN.

Products/Models this PCN applies to:

This notification applies to standard and custom products belonging to the following product families:
