

October 2005

Dimensions

Mounting

Stacklight bases may be mounted without the use of extension tube or mounting base. If additional height is required, choose 0.8 inches to

30 inches (20 – 760 mm) extension tubes that fit between the mounting base and stacklight base. The extension tubes are threaded with 3/4" NPT

threads, allowing for direct connection to conduit fittings or threaded holes without the use of a mounting base.

Figure 1-2. Mounting Options and Dimensions in Inches (mm)

① Stacklight base and gasket are supplied as standard with two sets of base mount holes. One set with centre-to-centre spacing of 1.75 inches (44.5 mm) and another set with centre-to-centre spacing of 1.65 inches (42 mm).
