

# Eaton 9SX UPS

# Reliable power protection for the edge and beyond

Combining reliable double-conversion topology, internal static bypass and an easy-to-ready LCD menu display, the Eaton 9SX UPS provides the highly efficient and reliable power you expect from a 9-series UPS in a convenient tower form factor. Network, Modbus, Relay and signal input functionality enables integration into a variety of IoT and IIoT applications.

#### Protect the business you've worked hard to grow:

#### Reliable power for critical systems

The 9SX offers the robust double-conversion, online power protection needed for medical, light industrial, automation and mission critical IT applications. With zero transfer time to battery, continuous filtering of power, and an internal, automatic static bypass, the 9SX ensures performance and compatibility.

#### Increased battery life

Eaton offers ABM technology that increases battery service life by 50 percent. ABM uses advanced charging techniques to extend battery life and provides advanced notice before batteries fail.

#### Get more so you can do more

#### More power

By providing up to 28 percent more wattage compared to traditional UPSs, the 9SX allows you to connect more devices and leave room for expanding IT systems.

#### More control

Automate power delivery by utilizing switchable, programmable outlets, without the need of a third party device or PDU. Programmable signal input through the RPO port also enables the UPS to change operating modes in reaction to external events.

### Gain efficiencies in your operations

#### Integrate and standardize communications

Maximize uptime with remote monitoring and management of your 9SX via an Eaton connectivity and software. SNMP, serial, USB, Modbus, and relay options enable integration regardless of the system architecture. Remote Power Off/Remote On Off signal input also manages UPS On/Off state preserving battery life during process shutdown.

#### **Advanced LCD interface**

Simplify UPS monitoring with Eaton's advanced LCD display. Easy access to UPS alarm history, energy logs, unit serial numbers and firmware versions enable first time issue resolution right at the source. Eight, user-selectable languages ensure success for global deployments.

#### Services and support:

Eaton provides product support 24 hours a day, 7 days a week. From battery replacement to full UPS service plans, Eaton has one of the top service models in the industry.

# 9SX front panel

- LED indicators
- 2 LCD panel
- 3 Hot swappable batteries
- 4 Sleek tower design
- 5 High efficiency mode

# 9SX back panel

- 6 EBM connector
- Network Card-M2 slot
- 8 RS-232 port
- USB port
- Standard relay output connector
- Battery detection port
- 12 Remote Power Off (RPO)/Signal Input Connector
- Fan
- 14 Switchable load groups
- 15 5-15P input plug

#### **Options**

| Connectivity         | Catalog number | Slot type |
|----------------------|----------------|-----------|
| Network card         | NETWORK-MS     | Mini slot |
| Gigabit network card | NETWORK-M2     | Mini slot |
| Industrial relay     | INDRELAY-MS    | Mini slot |
| Modbus card          | MODBUS-MS      | Mini slot |
| Relay card           | RELAY-MS       | Mini slot |

#### What's in the box

- UPS
- · Safety manual
- · Quick start guide
- · Reference guide • RS-232 serial cable
- USB cable

#### **G** models only

- Cable lockers
- · Output cables
- C19 to L6-20P input cables (for 2000 VA - 3000 VA models)
