① Order quantity of two for 4-pole design.

② Group members for the 5-pole terminal represent the combination of the 2- and 3-pole number.

Table 37-38. Other Accessories

Description	Size	Part Number	Price U.S. \$
Control Module (Rectifier)	30 – 200A	3915B98G01	

Arc boxes, upper base assemblies and cross bars are equivalent to the A201 series. See **Page 33-194**.

Contact kits are equivalent to the A201 Model J series, with the exception of the magnetically latched 200 ampere unit. It uses Catalog Number 672B788G07 for the 3-pole device. For other poles, consult factory.
