

Door Openers

150 & 151 Series

The Catalog 150 and 151 motise door openers are dependable long service devices, providing the security and convenience of remote control door-lock operation. These units are flush mounted in place of the regular door strike plates. The door remains locked until the opener is electrically actuated by a remote contact device. For AC models, use with a 592Transformer. See page 11-2.

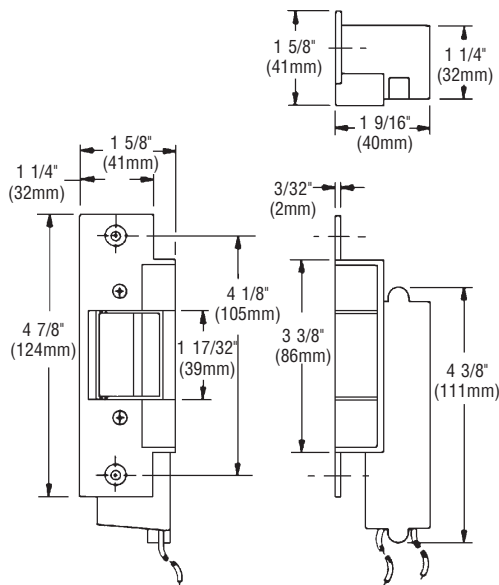

For use in apartments, offices, banks, industrial buildings, schools, and institutions. Use in door interlocking and control systems with timed or manual operation.

Easy to install

Fits left and right hand doors

Rugged, heavy duty construction

For use in hollow metal jambs
