

General Purpose Bells

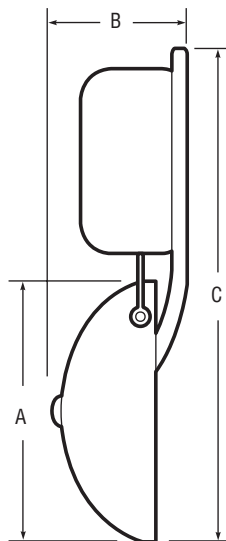

AC and DC Models

55 Series

Economy single magnet bell. Exposed striker, vibrating bell comes with an enclosed grounded terminal and case.

For low cost, light duty installations in factories, institutions, offices, and OEMs. Used as doorbells, extension signals, warning bells, and audible annunciators. Especially suitable for AC powered security systems with battery backup.

FEATURES

- > 4" and 6" gong sizes
- > AC and DC Models
- > Low Voltage
- > Gray finish
- > Low current drain permits long wire runs
