Here's a plug that will give you a real connection — PLUG CAPS and CORD CONNECTORS FROM ERICSON

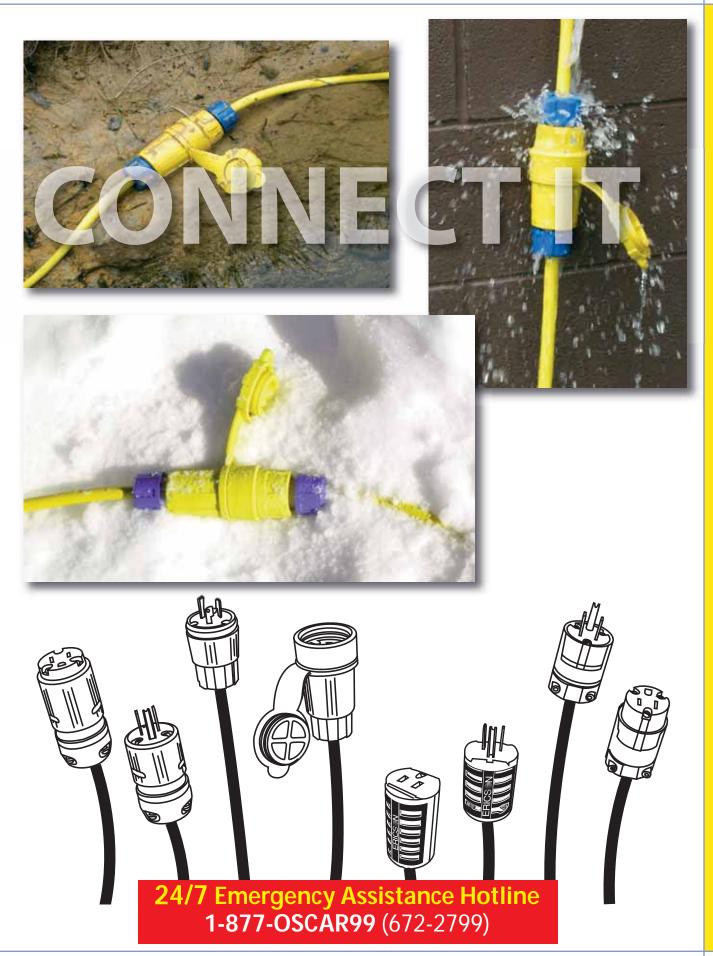

The originator of BACK-WIRED plug caps and connectors

THE ERICSON MANUFACTURING COMPANY

1660 Hayden Avenue, Cleveland, Ohio 44112 • (216) 451-2030

Original 1950's Advertisement

Ericson Manufacturing Company offers a wide variety of plugs and connectors to fit your needs.

PERMASLINK®

- Two-screw cable clamp secures cord and provides superior strain-relief
- Withstand high impact, corrosion, oils, greases, solvents and other chemicals across -20 °C to + 100°C
- Individual wire pockets help prevent flashovers
- Rubberized outer housing for superior grip and impact resistance
- Flexibility of reverse-cover design creates weather-resistant connections by interchanging covers
- Internal cord seals keep out water/mud/dust
- Available in all black

PERMA**©**GRIP™

- · Quick field assembly with cord grip nut
- Superior water/mud/dust resistance provided by safety compression cord grips
- Withstand high impact, corrosion, oils, greases, solvents and other chemicals across -20 $^{\circ}\text{C}$ to + 100 $^{\circ}\text{C}$
- Flexibility of reverse-cover design (straight blade devices) creates weather-resistant connections by interchanging covers
- · Custom marking available on cord grip nut
- Available in all black

PERMAITITE®2

- Tongue & groove sealing system provides extreme environmental protection of:
 - NEMA Type 4, 4X, 6, 6P & IP67
- · Devices resist high-pressure hose down of 1,500 psi.
- Withstand high impact, corrosion, oils, greases, solvents and other chemicals across -20 $^{\circ}\text{C}$ to + 100 $^{\circ}\text{C}$
- Removable/replaceable self-retained sealing cap provided with connector to keep out contaminants when not in use (plug cap also available)
- · Custom marking available on cord grip nut
- Available in all black

50 Amp Devices

- $\bullet \ \text{Rugged nylon construction resists impact, corrosion and jobsite oils/chemicals}\\$
- Quick field assembly, with color coded markings
- Nickel plated blades and stainless steel screws provide optimum corrosion resistance
- Boots can be threaded together with the optional sealing collar system to provide maximum environmental protection
- Available in plugs, connectors, inlets and receptacles
- Rubberized grey "Twist-Grip" for ease of connection

Commercial Grade

- Translucent body allows device to glow from power on lamp (EL Models)
- Wide open "suitcase" style construction makes wiring easy
- Fits 10/3 to 18/3 cord diameters
- Rugged design withstands abuse on the jobsite
- Color coded termination screws for ground, hot and neutral
- Combo screw heads speed up installation
- Rubberized "grip" cushions and surrounds device
- Economy priced

Features of All Smart Monitor Plugs & Connectors:

- Super bright 2-color LED technology
- Smart Monitor Module
- Easy to wire
- Clear internal wiring cover
- Multiple cord grommets included
- Makes OSHA safety compliance easy and cost effective

24/7 Monitoring of These 7 Events

- No Ground
- Loss of Ground In Cord
- Hot/Neutral Swap
- Reverse Polarity
- Hot on Ground
- Open Neutral

3 Styles to Pick From:

- Perma-Link®
- Perma-Grip™
- Perma-Tite® 2

New From Ericson... Industrial application SmartCords factory built to last and last. Models with Smart Connector (Economy Safe) and both Smart Plug and connector are available. 24/7 monitoring with Assured Grounding Compliance to NEC and OSHA standards. Built with the highest quality materials to withstand your environment.

FS Series Single Receptacles & Male Inlets Under All Weather Flip Covers

- Weather resistant boot seals around Ericson Perma-Tite plug to provide weather resistant protection
- Spring-loaded flip-lid covers receptacle when not in use
- Includes cover plate, rubber boot, stainless steel mounting plate/mounting screws
- Impact, chemical & corrosion resistant construction stands up to demanding environments
- Mounts easily to 6200 or 6300 series FS/FD boxes and any flat surface
- Collar plug seals and grips all types of round plugs or connectors

Double Outlet Receptacle with Cover Plates - PWDX Series

- Weather resistant boot seals around Ericson Perma-Tite plug to provide weather resistant protection
- Spring-loaded flip-lid covers the receptacle when not in use
- Two independent fully rated receptacles in one easy to install assembly
- Impact, chemical & corrosion resistant construction stands up to demanding environments
- Mounts easily to 6200 series FS/FD boxes and any flat surface

Adapters

NEMA Change Adapters

Now make quick, secure connections between straight-blade and locking plugs and connectors with Ericson's NEMA configuration adapters.

- Heavy-duty non-conducting housing and using heavy gauge solid brass blades
- Compact size makes them easy to use and transport
- Available in molded style or short cords

CAN I GET THIS

CUSTOMIZED

FOR MY COMPANY?

Yes we can. Ericson can customize our offering of wiring devices to meet your individual needs. The custom solution can be as simple as the popular printing on the back of the cord grip nut to fully custom colored and labeled product. Minimum order sizes will apply and well as some setup fees. Contact us to discuss your needs and custom design details.

Notes:

- 1. Some customization can void certain agency safety listings or warranty.
- 2. Minimum quantities will apply. Other design and tooling fees may apply.

How to order: Contact you local Ericson Factory Representative or call us at 1-800-Ericson (374-2766)

Commercial Grade Plugs & Connectors

The Ericson 5266 and 5269 Series of Commercial Grade plugs offer the latest in design innovation and quality in an economy grade wiring device. The demands of today's electrical industry are met with this new design with features never before seen in a commercial device. Designed to provide years of trouble free service in demanding industrial, construction and rental environments. Available in 2 styles, with and without the power on "glow" module to light up the entire device.

- 2 styles with and without internal lamp module (see chart)
- Translucent body allows device to glow from power on lamp
- Tough, soft feel, rubber overmold grip surrounds device body
- Wide open "suitcase" style construction makes wiring easy
- Two captive screw body clamp design is easy to assemble
- Cord diameter matching inserts fit a wide range of cord sizes
- Solid brass blades for optimum electrical contact
- Fits 10/3 to 18/3 cord diameters*
- Rugged design withstands abuse on the jobsite
- Clear internal conductor cover allows visual inspection
- Color coded termination screws for ground, hot and neutral

PERMASLINK® Plugs and Connectors

United States patent number 4,021,092 was assigned to today's Perma-Link® plugs and connectors which are classified among the most rugged and safest wiring devices available. They incorporate many of the same features as Ericson Perma-Tite® 2 and Perma-Grip™ devices and utilize a two-screw cable clamp. Perma-Link® plugs and connectors are designed to provide many years of trouble-free service in the most demanding industrial and construction environments.

- UL Listed and CSA Certified
- Two-screw cable clamp secures wire and provides strain-relief
- Solid brass blades for optimum electrical and mechanical performance
- Keyed body and cover for easy alignment/assembly
- Molded-in non-slip finger-grips makes devices easy to assemble and handle
- Withstand high impact, corrosion, oils, greases, solvents and other chemicals across -20 °C to 100 °C
- Individual wire pockets help prevent flashovers

- Transparent back plate speeds wiring inspection
- Selected models available with Ground Continuity Monitor
- Available individually or on factory assembled cord sets
- Flexibility of reverse-cover design creates weather-resistant connections by interchanging covers
- Ericson's exclusive Brilliant Blue and Radiant Yellow High Visibility Dual Color Safety System

All Black Available

Note: Add - BLK for all black as available.

Versatile Weather-Resistant Field Conversion

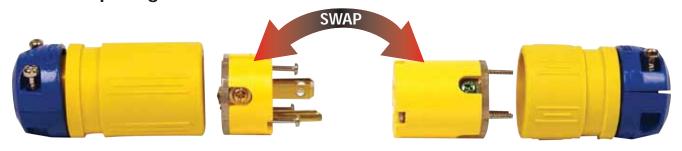

Our Perma-Link® plugs and connectors (straight blade only) are designed so they can easily be converted to create weather-resistant connections by interchanging the internal assemblies. Insert the plug body into the connector cover, and the connector body into the plug cover. There are no extra parts to purchase.

Step 1:

Disassemble The Plug & Connector As Shown

Step 2: Swap Plug & Connector Assemblies

Step 3:
Assemble Cords Per Bag Instructions

- UL Listed and CSA Certified some ETL Listed
- Quick field assembly, no cable clamp screws to tighten, simply twist on the cord grip nut
- Water/mud/dust resistance provided by safety compression cord grips
- Keyed body and cover for easy alignment/assembly
- Color coded rubber cord-seal bushings accommodate a wide range of cable diameters
- Molded-in non-slip fingers grips makes devices easy to assemble and handle
- · Withstand high impact, corrosion, oils, greases, solvents and other chemicals across -20 °C - +65 °C
- Nickel plated brass blades and ground pin stops corrosion and keeps solid electrical contact

ERICSON EXCLUSIVE

PERMA©GRIP™ Plugs and Connectors

Ericson's industry exclusive design combines the Perma-Tite® cord grip with the industry proven design of its Perma-Link® devices to provide a line of incredibly tough plugs and connectors that stand up to the most demanding industrial and construction environments.

- Individual wire pockets help prevent flashovers
- Transparent back plate speeds wiring inspection
- Selected models available with Ground Continuity Monitor
- Available individually or on factory assembled cord sets
- Flexibility of reverse-cover design (straight blade) devices) creates weather-resistant connections by interchanging covers
- · Ericson's exclusive Brilliant Blue and Radiant Yellow High Visibility Dual Color Safety System

Safety Compression Cord Grip Non-conductive, long life

rugged PBT, powerful cord grip, unique design accepts all AWG wire range sizes from #18 through #12 with no crushing and no inserts to change or add

High-Visibility Safety Colors Added safety in dull work areas

Adds to quick With Brilliant Blue and Radiant alignment Yellow colors. and assembly.

> Blades nickel plated to prevent corrosion

Keyed PBT Body

Transparent Back Plate

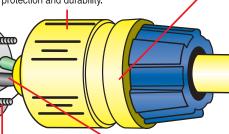

Clear polycarbonate permits visual wiring inspection without disassembly

Double Insulated

Superior PBT body with TPE thermoplastic elastomer cover for extra safety, protection and durability.

FEATURE! Internal Cord Seal

Built-in cord entrance seal in cover seals out moisture and most foreign material that can cause short circuit.

EXTRA GROMMETS Color coded rubber cord sealer grommets supplied for a variety of diameters.

Non-Slip Finger Grips

Captive Assembly Screws Double lead screws provide rigid assembly, no bulging of cover, maximum pull out resistance, fast assembly.

Dead-Front Back-Wired Design

We set industry standards with this design, no exposed current carrying parts, meets NEC article #410-56 (d).

Individual Wire Chambers

Accepts up to #12 AWG conductors and prevents flash overs and short circuits.

Note: Add - BLK for all black as available.

PERMAITITE® 2 Plugs and Connectors

Perma-Tite®2 plugs and connectors are engineered and manufactured to the highest quality standards to provide the ultimate in electrical service and protection. They are designed and proven to do their best under the worst conditions in a broad array of the most severe food processing, industrial, marine, construction and petro-chemical work environments.

- UL Listed & CSA Certified, some ETL Listed
- Tongue & groove sealing system provides environmental protection of: NEMA Type 4, 4X, 6, 6P & IP67
- Devices resist high-pressure hose down of 1,500 psi.
- Plug & Connector bodies made with PBT chosen for its high resistance to moisture absorption, high voltage arcing and carbon tracking
- Keyed body and cover for easy alignment/assembly
- Color coded sealing bushings are provided to fit a variety of cord diameters
- Removable/replaceable self-retained sealing cap provided with connector to keep out contaminants when not in use
- Nickel plated blades for corrosion resistance
- Transparent back-plate makes for quick visual wiring checks
- Ericson's new brilliant Blue and Radiant Yellow High Visibility Dual Color Safety System symbolizes that legendary Ericson Quality

- Excels in demanding outdoor & in-plant environments
- Resists hose directed water, the entry of water during prolonged submersion at a limited depth & damage from external ice formation

Typical Applications

- Food processing
- Pulp and paper mills
- · Refineries and Petro Chem Facilities
- Ship yards
- Utilities
- Marine

Rugged thermoplastic polyester

body in plug and connector.

16CW Connector Cover Available

EXTRA GROMMETS Color coded rubber cord sealer grommets supplied for a variety of diameters.

UNIQUE WATER/DUST WIPER

Seals out moisture, mud and particles.

ORIGINAL DEAD-FRONT BACK-WIRED CONSTRUCTION

We set industry standards with this design with no exposed current carrying parts.

CORD **JACKET SEAL**

CORROSION RESISTANT ASSEMBLY SCREWS

PBT BODY

Stainless double lead assembly screws made for plastics exclusively to insure fast assembly and withstand high torque and pullout

EIGHT POINT SEALING

Unique rubber to rubber tongue and groove eight point seal-tite system when mated.

CORROSION RESISTANT NICKEL **PLATED BLADES**

Current carrying blades and contacts of high conductivity copper alloy with nickel plating for corrosion resistance.

DOUBLE INSULATED

Superior PBT body with TPE thermoplastic elastomer cover for extra safety, protection and durability.

SAFETY COMPRESSION **CORD GRIP**

Non-conductive, long life rugged PBT, powerful cord grip, unique design accepts a variety of wire sizes with no crushing and no inserts to change or add.

Note: Add - BLK for all black as available.

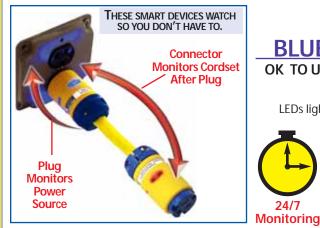

Smart Monitor Plugs & Connectors Constantly Monitors These Conditions:

· No Ground · Loss of Ground In Cord · Hot/Neutral Swap · Reverse Polarity · Hot on Ground · Open Neutral

Features Of All Smart Monitor Plugs & Connectors:

- Super Bright LED Technology
- **Smart Monitor Module**
- · Keyed body and cover
- · Easy to wire
- · Clear internal wiring cover
- Non-slip finger grips
- Color coded terminal screws
- · Multiple cord grommets included
- · Rubberized outer body
- · Safety Yellow and Blue body

LEDs light up to let you know power is O.K.

- · Loss of Ground In Cord
- Hot/Neutral Swap
- · Reverse Polarity
- · Hot on Ground
- · Open Neutral

LEDs light up to let you know there is a problem

How It Works - Diagnostic Safety Cords

Do Not Use

- Check power source for proper wiring and ground
- · Check cord for cuts, nicks etc.
- Check plug wiring
- Check connector wiring

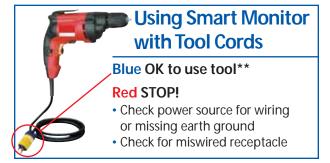

- Check cord for cuts, nicks etc.
- Check connector wiring
- * Full diagnostic safety cords give easy-to-understand indications which saves time tracking down electrical safety issues.
- **This device does not diagnose any tool internal issues. This device is an indication that the power and safety earth ground are present.

Do Not Use

· Check power source for wiring or missing earth ground

Cord Clamp Style

Perma-Link™ Cord **Clamp Style Features:**

- · Internal cord seal
- · Dual screw self-centering clamp
- · Rubberized outer body XXXX-PML

Cord Grip Style

Perma-Grip™ Cord Grip **Nut Style Features:**

- Nickel plated solid brass blades
- Super sealing cord grip nut design

Water Tight Style

Perma-Tite2™ All Weather Cord Grip Nut Style features:

- · All weather NEMA 6P rated
- · Super sealing rings
- Nickel plated solid brass blades
- · Super sealing cord grip nut design
- · Connector includes cover
- · 360° indication XXXX-CW6PL

This Non-NEMA configuration, commonly called the "crowsfoot", is widely used in critical applications that require equipment to be plugged into a specific electrical system to ensure proper function or to prevent equipment damage.

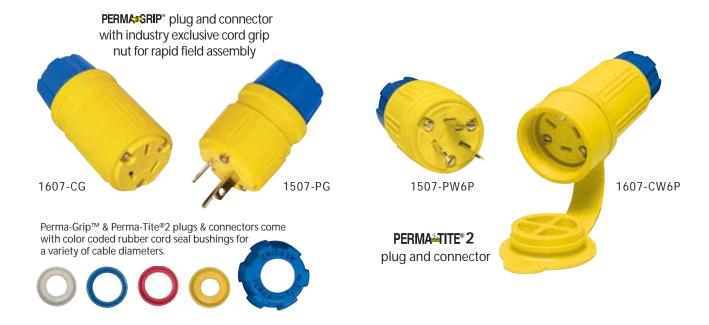

Typical Applications

- Low-voltage hand lamps and matching transformers
- Data acquisition/logging equipment to detect level and flow measurements on tanks and valves
- Sensitive electronic equipment that must be used on voltage regulated circuits

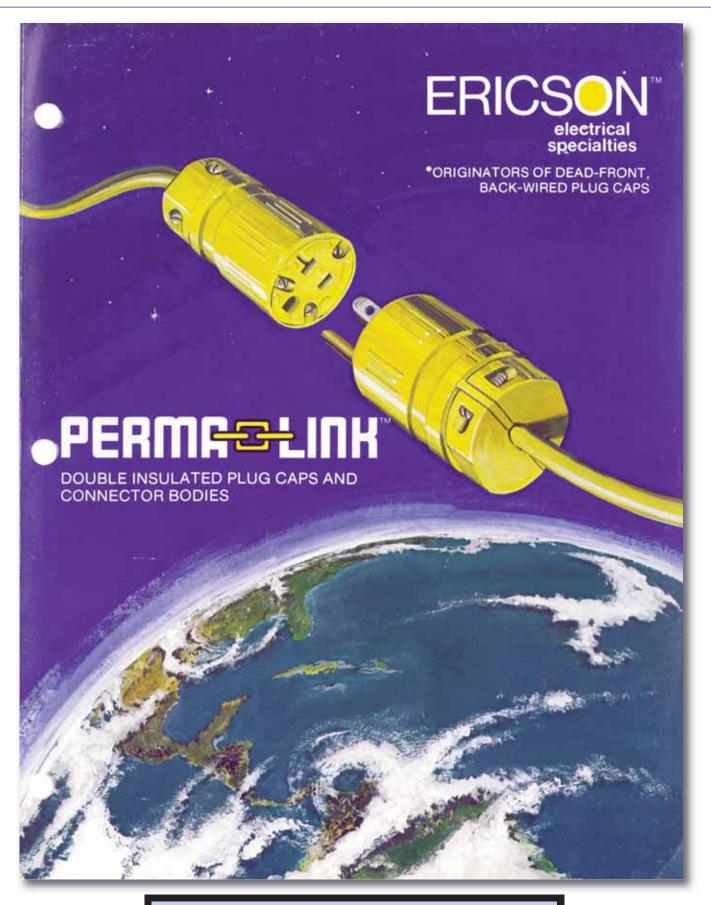

Features Guide

- Plug and connector bodies made with PBT chosen for its high resistance to moisture absorption, high voltage arcing
 and carbon tracking.
- Transparent back-plate makes for quick visual wiring checks.
- · Keyed body and cover for easy alignment/assembly.
- Color-coded sealing bushings are provided to fit a variety of cord diameters.
- Perma-Tite® 2 devices have the eight-point rubber tongue and groove sealing system to provide environmental protection.
- Rubber sealing cap provided with Perma-Tite® 2 connector to keep out contaminants when not in use.
- Optional plug cover available order catalog number 15PW.
- Ericson's exclusive Brilliant Blue and Radiant Yellow High Visibility Dual Color Safety System.
- Perma-Tite® 2 devices rated NEMA 4,4X,6,6P & IP67.

All Weather Heavy Duty Double Outlet Receptacle with Cover Plates - PWDX

- Weather resistant boot seals around plug to provide weather resistant protection*
- · Spring-loaded flip-lid covers receptacle when not in use
- Impact, chemical & corrosion resistant construction stands up to demanding environments
- Mounts easily to 6200 series FS/FD/FT boxes and any flat panel surface
- Also mounts to permanent FS boxes for outdoor power
- · Spring loaded flip covers with SS hardware
- Lock out tabs
- * Use Ericson Perma-Tite® 2 plugs for the ultimate in weather resistance

Features

- All weather/heavy duty
- Spring loaded covers
- 3 lip built-in seal
- Hose down
- Heavy duty receptacles
- Lockout/tag out

Applications

- Food processing
- Pendant cord ceiling drop power
- · Wall mounted outdoor power
- Outdoor lighting landscape power
- Venue landscape power
- · 3 Phase cordsets
- Convention and trade show power taps

The PWDX Series is designed for hanging pendant power where splash and hose-down are used. The PWDX spring-loaded flip covers are extra deep and internally sealed to guard against splash and hose directed liquids. The non-metallic design is perfect for food and liquid processing where metal and glass fragments are not acceptable. The non-metallic cord grip assembly (an Ericson Exclusive Feature), is tested to hold the PWDX assembly for years of worry free service.

- Single PWDX or Double Receptacle Assemblies
- Each connection covered with spring loaded flip cover
- SS spring and pin hinge assembly
- Great for outdoor or hose down areas
- Lockout/Tagout tabs on each receptacle
- Use wall mount kit to secure (sold separately)

6234WFS with 1610-PWDX pendant style

Double 1610-PWDX on 6234WFT enclosure

Power "Stringer" Application

The versatile PWDX assemblies can be used to build a superior outdoor rated power distribution "stringer" cordset. Use the "feed-thru" models to link the PWDX assemblies along cord for the ultimate in outdoor sealed power drops. Mate the Ericson Brand Perma-Tite2 plugs with the PWDX to get the highest level of dust, rain, hose, spray or snow/ice protection. Great for local carnivals and fairs where compliance is mandatory and non-metallic enclosures are dangerous or not allowed*.

- "Bathtub" enclosure design restricts water and rain entry
- Use for compliant power stringers
- Mate with Perma-Tite2 plugs for the ultimate in weather tight sealing

*The NEC restricts the use of metallic "job" boxes for use in temporary relocateable power cords. Only use non-metallic enclosures designed and tested to meet compliance.

Outdoor Landscape Power

Perfect for outdoor power taps at home, business or outdoor venues, the PWDX is designed to mate with any metallic FS box for a solid all-weather seal. Use the black versions for more discrete hiding of power taps. GFCI protection is recommended at the service panel with a GFCI circuit breaker to protect the service line, metal conduit /enclosure and PWDX receptacles.

- Perfect for holiday or street lighting in cities
- Much heavier duty than standard clear rain covers
- Mates will all standard metallic FS enclosures

PERMA: TITE 2 Single Outlet Receptacle with Cover Plates - FS Series

- Weather resistant boot seals around Ericson Perma-Tite plug to provide weather resistant protection
- · Spring-loaded flip-lid covers receptacle when not in use
- Includes cover plate, rubber boot, stainless steel mounting plate/mounting screws
- Impact, chemical & corrosion resistant construction stands up to demanding environments
- Mounts easily to any FS and FD boxes and any flat surface

Also Available in:

- Green
- Black
- Sand

NOTES:

1. Does not include receptacle. Use with standard receptacles of same electrical ratings.

Single Male Inlet Assemblies with Cover Plates - 2705 FS Series

- · Weather resistant boot seals around the connector to provide weather resistant protection
- Spring-loaded flip-lid covers inlet when not in use
- Includes cover plate, rubber boot, stainless steel mounting plate/mounting screws
- Impact, chemical & corrosion resistant construction stands up to demanding environments
- Mounts easily to any 6300 series FS/FD boxes and any flat surface
- Spring Loaded SS hardware flip cover

Application Notes:

The 2705 series of male inlets is designed for all weather power inlet on a variety of applications. The heavy duty flip cover assembly and superior round sealing collar provides a superior seal against the elements. Use for inlet power only. Never use these devices for power output or receptacle. These devices must be wired dead and cannot be accidentally energized without a connector in place.

Power inlet for powered food trolley carts

- Power inlet for machines in tough environments
- Power charging inlet for fire trucks, ambulances and electric service vehicles Power inlet for portable temporary power panels

Power charging port for electric battery cars or golf carts

Also available in all black or customized - call Ericson for details

NEMA Configuration Adapters

Now make quick, secure connections between straight-blade and locking plugs and connectors with Ericson's NEMA configuration adapters.

- Heavy-duty non-conducting housing and using heavy gauge solid brass blades
- Compact size makes them easy to use and transport
- Available in four of the most popular models

NEMA Configuration Adapters Selection Guide

PERMAITITE® 2 Plug Cover

- Use with Ericson's Perma-Tite® plugs to seal out water, dust and other contaminants and to protect blades from damage when plug is not in-use
- Eight-point rubber tongue and groove sealing system provides environmental protection
- Additional protection provided by a unique internal water/dust wiper
- Easy to assemble
- Ericson's Radiant Yellow for High Visibility on job sites

24CW	Female Large replacement cover for CW6P connectors
26CW	Female 30 Amp Large replacement cover for CW6P connectors

Hospital Grade Perma-Link® Plugs and Connectors

The same rugged internal construction as our standard Perma-Link line is found in these units, and in addition they meet UL Hospital Grade standards. Designed for reliable long life, built to withstand exceptional abuse, these dead-front, back-wired devices save installation time, provide maximum protection and can be used for straight blade installations in hospitals, schools, and extended care facilities. Constructed of rugged polybutylene therephthalate (PBT) and a high-tech thermoplastic elastomer (TPE), they have passed tests for ground pin retention, ground resistance, face impact, ground temperature contact, fault current, line blade retention and abrupt removal.

INSULATED/INSTITUTION GRAY RUBBER COVER

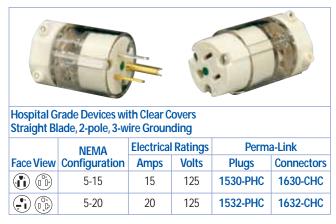

White and light "institution" gray colors identify this style which provides superior insulation. They are clearly marked "Hospital Grade" and clearly marked with a green dot to signify UL Hospital Grade. Non-conductive cord clamp to accommodate cord sizes #16/3 SJ through #12/3 SO.

FAST WIRING CHECK THROUGH CLEAR COVER

White PBT and transparent polycarbonate housing identify this type which permits visual inspection of wiring terminations without disassembly. Impact resistance, and non-conductive. Cord clamp has removable insert to accommodate #16/3 SJTW through #12/3 SO cord sizes.

PERMASLINK® Hospital Grade Selection Guide

EML520R & EML630R

Ericson offers our same heavy duty receptacles that we use in our own Temporary Power Panels. These wiring devices are primarily used in our OSCAR series and can be used as replacement parts for those products. Features such as color coded screw terminals with combo heads for ease of wiring makes these superior devices the best choice.

PERMASSLINK® 50Amp Locking Plugs and Connectors

Ericson's 50 Amp plugs and connectors incorporate the latest technologies to provide wiring devices that are safer, faster to wire, lighter and easier to identify. These devices are available as plugs, connectors, inlets and receptacles and are available in 3 and 4 wire configurations.

- UL Listed, CSA Certified, CETLUS Listed
- Rugged nylon construction resists impact, corrosion and jobsite oils/chemicals
- Quick field assembly, no need to disassemble the entire device
- Nickel plated blades and stainless steel screws provide optimum corrosion resistance
- Optional heavy-duty weather-proof boots are available and provide added environmental protection and UV resistance
- · Boots can be threaded together with the optional sealing collar system to provide maximum environmental protection
- Available in plugs, connectors, inlets and receptacles
