

Fluke ES-162P3-2 3-Pole Stake Kit

Overview:

Five-piece set for performing 3-pole fall-of-potential testing that measures the ability of the earth ground system or individual electrode to dissipate energy from the site.

Needed to perform 3-Pole Fall-of-Potential testing (Stake testing). Used with both the Fluke 1623-2 and Fluke 1625-2. This is a subset of what is included in the Fluke 1625-2 Kit.
