

Introducing the Panel Builders Knockout Punch Kit.

The Panel Builders Knockout Punch Kit from GREENLEE contains the most popular knockout sizes commonly used in the fabrication of electrical control panels.

GREENLEE is known world-wide for manufacturing high-quality, long-lasting knockouts. Slug-Buster® knockouts punch clean, accurate holes in mild steel up to a maximum 10 gauge material thickness. Plus, the unique punch design splits the slug for easy removal from the die.

7240SB – Panel Builders Knockout Punch Kit
1/2" & 3/4" Conduit and 30.5mm Diameter Punches

The 7240SB Panel Builders Knockout Punch Kit features 1/2" & 3/4" Conduit and 30.5mm diameter punches. The manual ratcheting driver and ball-bearing draw studs easily handle 16 & 14 gauge mild steel commonly used in electrical enclosures and control panels. This entry level knockout punch kit is perfect for Panel Shops, Electrical Integrators and Pre-fab Operations.
