

## Application:

SLB and LBY elbows are installed in conduit systems to:

- act as service entrance elbows between service entrance and vertical weatherhead conduit runs
- make 90° bends in conduit systems where space is limited
- act as pull outlets
- provide access to conductors for maintenance and future system changes

ET short radius tees are installed in conduit systems:

- in concealed conduit runs allowing single conduit stub up to outlet boxes located above or below main conduit run. Eliminates separate feed and return conduits to flush floor box or junction box

## Features:

SLB elbows have:

- compact overall size and short hubs
- taper tapped hubs and integral bushing for standard threaded conduit
- covers and gaskets furnished

LBY elbows have:

- maximum volume for bends within a compact overall size
- screw-on cover for ease of installation and removal
- cover openings on an angle, permitting conductors to be pulled straight through either hub
- taper tapped hubs and integral bushing for standard threaded conduit

## Dimensions

ET short radius tees have:

- compact size, small radius of bend for use in concealed or open conduit systems. Particularly suited for use in shallow floors or partitions
- taper tapped hubs and integral bushing for standard threaded conduit

## Standard Materials:

- SLB elbows – copper-free aluminum
- LBY elbows – Feraloy® iron alloy
- ET tees – Feraloy iron alloy

## Standard Finishes:

- Copper-free aluminum – natural
- Feraloy iron alloy – electrogalvanized and aluminum acrylic paint

## Options:

- Finishes – LBY elbows:  
*Corro-free™* epoxy power coat .... add suffix S752
- Material (LBY only) – copper-free aluminum construction ..... Add suffix –SA

## Certifications and

## Compliances:

- UL Standard: 514B
- Fed. Spec.: W-C-586a

### Single Piece Liquid Tight Connector

Did you know that the single piece design of this product reduces chance of faulty assembly? It also saves time and money on installation – which is 2 to 3 times faster than conventional connectors. See page 28 in this catalog for more details.
