

Knockdown Steel 2-Post Robust Rack *DNRRLDK Series*

Front 10-32 Tapped Rails

When strength and reliability is the highest priority, be sure to choose the Data/Networking Robust Rack (DNRR) from Hammond Manufacturing. Designed to support your rack mount infrastructure, regardless of the application, the DNRR includes premium features not found on most other racks.

Features

- Constructed in 12-gauge steel..
- Tested to nearly double the suggested load rating of 800 lbs, Hammond engineered the DNRR**LDK to exceed your weight requirements.
- Our automated tapping assembly provides EIA-310-D compliant 10-32 tapped rails on the front to ensure ease of mounting rack mount equipment.
- To keep the rack upright when loaded with equipment, we've included a large base for freestanding support. Optionally, the base can be caster mounted for moving the rack.
- To keep it looking great, the DNRR undergoes a three-stage paint process which includes a coat of premium smooth black powder paint.
- Before sending the DNRR on its way we package the parts securely in a thick cardboard carton to prevent any damage that may occur during transportation.
- RoHS Compliant.
- Manufactured in North America.
