**Features & Benefits**

- One-piece cable tie and fixing offers a simple and easy to use method of bundling and fixing cables, through the design of the fir tree by ensuring positive and secure fixing into panels with thicknesses from 0.6-6.65mm.
- The offset on the cable tie creates an alternate solution when an offset fixing option is required and a tape clip cannot be used due to the design which reduces the potential of the bundle flexing or shifting.
- The 'disc' on the top of the fir tree covers the hole and minimizes the ingress of water and dirt.
