

Specification Sheet

Part Number: FRBTBAXXEB6X

FRBU, A Length, 11 Port, 6x Med Hellapon, PP, Black, 1/pkg

Article Number

857-00622

Type

FRBTB-AXXEB6X

Color

Black (BK)

Features & Benefits

- More traditional long trays accommodate fiber storage and splicing.
- 11-Port base configuration offers 10 round ports and one oval port for loop-through applications.
- Supports blown, pushed or pulled fiber/cable deployments to accommodate most construction styles.

Quantity Per

kit

Product Description

The FRBU is a compact, cap-ended, ready-access, fiber-optic splice closure for use in underground, direct burial and aerial installations. The mid-range capacity and port flexibility offered by the FRBU make it suitable for FTTC, trunk networks and CATV installation. The FRBU is environmentally sealed to the base using an O-ring and quick-release clamp and can be fitted with a pressure release valve and grounding feed-throughs. The cable entry/exit points in the base are environmentally sealed using either Cablelok mechanical seals or heat-shrink sleeves.

Short Description

FRBU, A Length, 11 Port, 6x Med Hellapon, PP, Black, 1/pkg

Global Part Name

FRBTB-AXXEB6X

Technical Description

The FRBU 11 Port A Length closure is supplied with a Polypropylene base. The base configuration of 10 round ports and 1 oval port covers a cable diameter range of 1.7 – 16.5mm when using Cablelok mechanical seals and 6.0 – 22.0mm when using heatshrink. The mounting system is manufactured from Grade 304 stainless steel and can accommodate a maximum of 6 Hellapon Medium stacked or 6 Hellapon Small trays giving a maximum of 144 fibre splices based on 24 fibres per tray. The tubed closure and the position of the mounting system allows for ease of access and traceability of the fibre on to the trays. The trays are white which makes it easy to see the colour of the fibre elements as they are routed through the fibre management system and on to the trays.
