

## Commercial GFCI Receptacles

The updates to our new commercial GFCI receptacles include an attractive new aesthetic. A single rectangular LED indicator visually displays the device's ability to provide protection: green indicates power, red indicates a trip, and flashing red indicates end of life. Redesigned test and reset buttons are flush with the face of the receptacle to further enhance this new look.

Patented CIRCUITPRO® self-test technology includes exclusive Closed Loop Active Detection (CLAD). Our advanced microcontroller identifies and isolates true ground fault conditions from transient events, harmonics, and other anomalous building noise, improving interoperability. Tamper-Resistant (TR) listed models feature our patented shutter design for protection. Weather Resistant (WR) and combination tamper-resistant/weather resistant (TRWR) models are also available.

Use Bryant commercial GFCI receptacles for commercial installations in airports, office buildings, schools, and other facilities.

- Single LED indicator for power (green), trip ground fault (red), and end of life (flashing red)
- Patented CIRCUITPRO® self-test and power denial technology
- Available in tamper-resistant and weather resistant versions
- Colors available are black, brown, gray, white, ivory, light almond, and red

### Ratings

Amperage	15 Amp/20 Amp
Feed-through	20 Amp
Voltage	120V AC (- 15%, + 10%)
Frequency	60 Hz
Dielectric	Withstand 1,500V
Flammability	VO per UL 94
Operating Temp	(-35°C to 66°C)
Trip Level	(4mA to 6mA).025sec.
Short Circuit	10,000 Amps

### Certifications

UL Listing	E41978 Fed Spec
UL Std 498	Receptacle
UL Std 943	GFCI
UL Std 943	Dust Resistant
UL Std 943	Corrosion Resistant
UL Std 943	TR, WR Resistant
NEC®/CEC®	LR24886
CSA Listing	C22.2 No. 42
CSA Std	No. M-02A
CSA Tech	

### Construction

Termination	Back and Side
Terminal	#14 to # 10AWG
Grounding	Autoground Clip
Power Indicator	Solid Green
GF/Trip Indicator	Solid Red
End of Life	Flashing Red
Contacts/Bridge	Nickel Plated
Printed Circuit Board	Conformal Coat
Scored Bridge	OEM Installations

### Code and Standard Compliance

#### National Electric Code®

Compliant with NEC® 406.12 and NEC® 517-18c for Tamper-Resistance Compliant with NEC® 406.9 for Weather Resistance

#### Industry Standards

NEMA WD6, ANSI C-73, NOM, National Electric Code, Canadian Electric Code

### Heavy-Duty Commercial Grade Offering

Description	Color	15A	20A
Standard Receptacle	Brown	GFR15	GFR20
	Black	GFR15BLK	GFR20BLK
	Gray	GFR15GRY	GFR20GRY
	Ivory	GFR15I	GFR20I
	Light Almond	GFR15LA	GFR20LA
	Red	GFR15R	GFR20R
Tamper-Resistant	White	GFR15W	GFR20W
	Brown	GFRT15	GFRT20
	Black	GFRT15BLK	GFRT20BLK
