1. In place of (2), specify Lens/LED Color Code from table.
2. In place of (3) specify Voltage Code from table.
3. In place of (4) specify Lamp Code from table.
4. Light independent of switch position.
5. For replacement part numbers, see page 517.
6. For nameplates and accessories, see page 546. and 549.
7. For dimensions, see page 551 .
8. For contact assembly part numbers, see page 550
9. Full voltage and transformer models use the same operator.
10. Additional contact configurations available (up to 6 total contacts).
11. Yellow pushbutton comes with white LED.

Contact Block Mounting Adaptor

| Style | Part Number |
| :--- | :--- |
|  | HW-CBL |

. Used to mount contact blocks to operator (first pair only).
2. IDEC strongly recommends $t$ using the safety lever lock (included) to prevent heavy vibration or maintenance personnel from inadvertently unlocking contacts.

## Lenses

In place of (2), specify the Lens Color Code from previous page.

1. All assembled part numbers in catalog include standard fingersafe (HW-F...) contacts.
2. Assembled units with spring-up terminals (HW-G...) can be ordered by removing an "F" from the part number (Ex. HW1B-M1F11-R becomes HW1B-M111-R).
3. Units with exposed screw terminals (HW-C...) must be ordered as sub-components.
