# AT-KS
## Adapter Grommet for Keystone Couplers

1.13

KEL-U 24|7 assembled with 1x AT-KS, equipped with a Keystone coupler.

USB-, RJ45 or e.g. HDMI connectors can be plugged in from the front and from the back.

| Type | Order No. | Height × Width × Length [mm] | Material | PU |
|------|-----------|------------------------------|----------|-----|
| AT-KS | 39952 | 42 x 41.5 x 19 / 1.65 x 1.63 x 0.75" | PA / Elastomer | 10 |

## Product Description

The grommet AT-KS is constructed on the basis of a KT cable grommet. In this elastomer grommet, a polyamide body is integrated. All couplers based on the Keystone system can be simply snapped in.

By using the grommet AT-KS, the split cable entry frame can be used to route pre-terminated cables and at the same time it can also be used as an interface for connectors. This can save additional cut-outs and reduce labour costs.

## Various Application Examples

USB, RJ45, HDMI and approx. 70 other Keystone couplers.

## Advantages & Benefits

- By utilising the AT-KS grommet, connectors can be integrated directly into the cable entry frame
- Separate cut-outs for connectors are no longer necessary
- Space-saving solution
- Grommet is suitable for all Keystone couplers
- Snap-in assembly

## Specifications
