Product Description

Cable entry frames KEL-BES for routing cables into network enclosures, control boxes and control panels. KEL-BES is also an ideal solution for entry and exit of cables that are routed inside raised floors, e.g. in computer centers. The KEL-BES frames match exactly the cut-out dimensions for 10-, 16- or 24-pin standard industrial connectors.

For round metric cut-outs M50 icotek now offers the split KEL-BES-S 50. It can be either directly snapped into the cut-out or screwed with a locknut.

Advantages & Benefits

- Fast and easy assembly
- Versatile in use
- Thermal protection, separation of cold and warm air
- Allows reduced airflow while filtering out dust, hair and larger particulate matter
- Visual screening
- Protects cables against wear due to sharp edges of the cutout
