

### TYPE NWC

- Features**
- Nylon
  - Molded in grip tabs
  - Molded in eye slots

- Benefits**
- Corrosion and UV resistant
  - Securely attaches to metal edge
  - For attaching cable ties

**Application:**

Wire management clips are designed to clip onto a thin metal edge to provide a means to hold cables or wires in place. The clips have directional angled teeth built-in that spread apart as the clip is pushed onto the metal edge, and bites into the metal surface, creating a tight, secure grip on to the metal edge. The metal teeth are molded into a nylon housing that has a molded eye to accept a cable tie. The cable tie is then used to wrap around and secure the cables or wires. These clips have become a common accessory for solar panel projects where they are used to hold up the ground and power wires that are daisy chained from panel to panel.

**Material:** Nylon 6/6  
**Temperature range:** -40 to 250 F  
**Holding strength:** 45 lbs.  
**Cable tie length:** 8"  
**Dimensions:**
