

TYPE GTGC

Features

- Manufactured from tin plated high strength copper alloy
- Furnished with stainless steel bolt, nut, and lock washer
- Internal hex drive
- Accommodates multiple rebar sizes
- May be mounted to an aluminum or galvanized steel cable tray
- UL 467 Listed for grounding and bonding

Benefits

- Provides maximum conductivity and corrosion resistance
- For clamping two parallel conductors to a cable tray
- Easy installation
- Suitable for grounding to rebar
- Installation flexibility
- Suitable for direct burial in earth or concrete
