

TYPE BBFC

Features

- Bars manufactured from copper
- Supplied with insulators, brackets & mounting hardware
- Stainless steel mounting bracket
- Large thread insulator mounting hardware
- Common bracket mounting

Benefits

- Ensures maximum conductivity and strength
- Out of box ready for installation. Lock washers prevent loosening of insulator bolts
- Corrosion resistance
- Ideal for heavy duty service
- Simplicity. Common pattern dimension fits all

Mounting Bracket Hole Pattern

Catalog Number	Insulator	Spacing	Dimensions		
			Length	Width	Thickness
BBFC-2-10-16-KIT	(2) 2500V, 3/8	8.50	10.00	2.00	0.25
BBFC-2-24-36-KIT	(2) 2500V, 3/8	22.00	24.00	2.00	0.25
BBFC-4-10-22A-KIT	(2) 2500V, 3/8	8.50	10.00	4.00	0.25
BBFC-4-10-22B-KIT	(2) 2500V, 3/8	8.50	10.00	4.00	0.25
BBFC-4-12-KIT	(2) 2500V, 3/8	10.50	12.00	4.00	0.25
BBFC-4-12-18-KIT	(2) 2500V, 3/8	10.50	12.00	4.00	0.25
BBFC-4-12-24-KIT	(2) 2500V, 3/8	10.50	12.00	4.00	0.25
BBFC-4-16-24-KIT	(2) 3400V, 5/8	14.50	16.00	4.00	0.25
BBFC-4-16-32-KIT	(2) 2500V, 3/8	14.50	16.00	4.00	0.25
BBFC-4-20-KIT	(2) 3400V, 5/8	18.50	20.00	4.00	0.25
BBFC-4-20-18-KIT	(2) 3400V, 5/8	18.50	20.00	4.00	0.25
BBFC-4-20-68-KIT	(2) 3400V, 5/8	18.50	20.00	4.00	0.25
BBFC-4-24-KIT	(2) 2500V, 3/8	22.50	24.00	4.00	0.25
BBFC-4-24-36-KIT	(2) 2500V, 3/8	22.50	24.00	4.00	0.25

TYPE BBFC

Features

- Manufactured from copper
- Industry standard
- Master grounding point
- Multiple connection points

Benefits

- Ensures maximum conductivity and strength
- Assemble & install
- Protects equipment from incoming surges
- Accommodates NEMA and conventional lug mountings.
Eliminates miss-wiring which can lead to EMI immunity issues

TYPE BBFC

Features

- Manufactured from copper
- Industry standard
- Rack grounding point
- Multiple connection points

Benefits

- Ensures maximum conductivity and strength
- Assemble & install
- Optimal for telecommunication systems
- Accommodates NEMA and conventional lug mountings.
Eliminates miss-wiring which can lead to EMI immunity issues
