

A19 Series Automatic Changeover with Strap-On Mounting

Description

The A19 Series Changeover is a control for use with combination heating and cooling thermostats.

Refer to the *A19CAC Type Automatic Changeover Control Product Bulletin (LIT-125065)* for important product application information.

Features

This control automatically selects the correct thermostat function.

Applications

Recommended for convectors, fan coils, and blast coil units, and similar devices. The A19CAC-2 Control can be mounted directly on either a vertical or a horizontal pipe, using the can mounting strap supplied with control. The A19CAC-1 Control has a remote bulb for greater mounting convenience.
