

### Standard Coupling Type EE with Finished Straight Bores

Standard Couplings Type EE are generally used on close-connected equipment and may be mounted for either wide or close shaft separations, at the user's option. This permits ready installation on existing shaft separations and eliminates moving the connected equipment to suit the coupling.

NOTES: Finished Bored E Hubs can be ordered by specific Bore size.  
 Complete coupling consists of 2 E Hubs and 1 Replaceable Element.  
 \* 50, 60 and 80 EE hubs are also stocked in steel. Consult KOP-FLEX.
