

# JLS SERIES FUSES

600 VAC • Fast-Acting • 1-600 Amperes

## Specifications

<b>Voltage Ratings:</b>	600 VAC
<b>Interrupting Ratings:</b>	200 kA rms symmetrical
<b>Ampere Range:</b>	1–600 A
<b>Approvals:</b>	Standard 248-8, Class J UL Listed (File No. E81895) CSA Certified (File No. LR29862) Federal Specification WF-1814 (QPL-W-F-1814)

## Description

JLS series fuses provide space saving, fast-acting overload and short-circuit protection for non-inductive loads. For applications where short-duration surges and spikes may cause nuisance fuse opening, consider the use of Littelfuse POWR-PRO® JTD or JTD\_ID series time-delay fuses.

## Applications

- General purpose circuits with little or no motor load.
- Resistive loads, such as resistance electric heat.
- Loads requiring fast-acting overload protection, such as equipment containing solid-state devices.
