PRODUCT OBSOLESCENCE ANNOUNCEMENT

Marathon Special Products (MSP) is announcing a product obsolescence for the 100 and 200 Amp Class T Fuse Holder rated for 600 volts. These products will affectively be discontinued January 31, 2020. New orders will not be accepted for these products after this date.

MSP does have a direct replacement for these obsoleted products. The newer models displacing these include the added benefits of:

- Modular pole design for versatility
- Barriers for additional protection from incidental contact
- Snap-on covers available for dead-front protection
- Overall 15% weight reduction (3-pole version)
- Maintains the same mounting holes for each respective version (100/200A)

Old T-Class Fuse Holder

New T-Class Fuse Holder

Obsolete (Old) T Class	6T100A1B	6T100A3B	6T200A1B	6T200A3B
Replacement (New) T-Class	M6T100A1B	M6T100A3B	M6T200A3B	M6T200A3B

Thank you,
