

Traditional square meters with the look of the 80s and a low price tag, these have operating zero adjusters and scales printed on translucent plastic, permitting diffused back-lighting using either the external light kit described in "Options" or custom lighting. Installation holes and cutouts are interchangeable with domestic and foreign designs, making product improvement quick and easy.

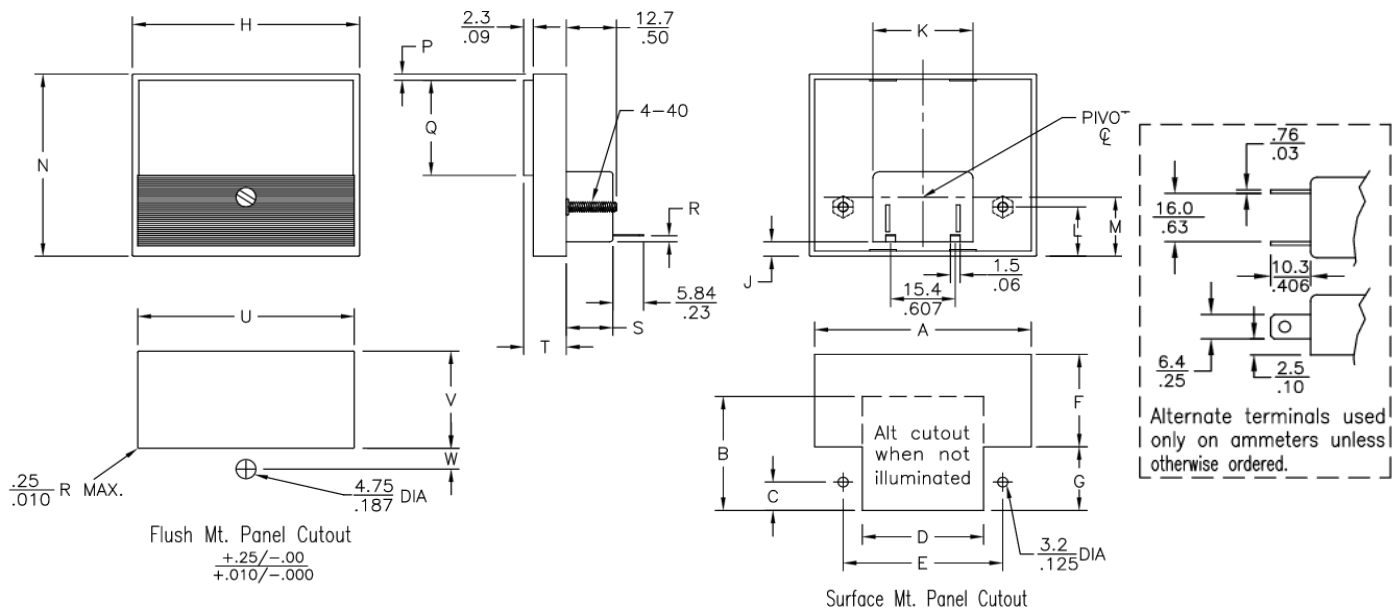

Features:

- Mount flush or surface without modification.
- Precision-molded covers and cases.
- Accuracy 5% of full scale.
- High torque, powerful ballistic movements permit mounting in steel panels without special calibration.
- Beautiful styling with subtle translucent lighting available in rectangular and square models.
- Production-engineered quick mounting and electrical connections.

Specifications

Accuracy	±5% of full scale (3% available as an option)*	
Temperature Range	0°C to +50°C operating, -20°C to +60°C storage	
° of Arc, Scale Length	°ARC	Scale Length
OMS	80	1.1"
MSQ	90	2.0"
