

## Pull and Push Type Solenoids

Series **EB600** solenoids are available in pull or push versions with stacking widths of 1/2, 3/4 and 1. Designed with stainless steel saddle stops and have .5 inch stroke maximum. All models have through holes in stack for mounting.

### Features include:

- .5 inch stroke
- 115, 230, 60 Hz
- 3 to 8 pound pull or push force
- -10°C to 30°C ambient environment
- Rated for continuous service

Stacking Size	Part Number	Type	Mounting	V & C	(Inches) Stroke	(Lbs.) Force	Description or Special Features
<b>.562</b>	EB600-00005	Pull	Standard Base	110/120/60	.50	2.8	Same as EB600-00005 except voltage
	EB600-00083	Pull	Standard Base	220/240/60	.50	2.8	
<b>.75</b>	EB600-10120	Pull	Standard Base	110/120/60	.50	5.0	
<b>1.00</b>	EB600-20015	Pull	Standard Base	110/120/60	.50	8.0	Special coil, standard winding, 4 ft. long special lead wire
	EB600-20333	Pull	Non-Standard Thru	110/60	.50	8.0	
	EB600-29885	Push	Standard Base	110/120/60	.50	8.0	Special coil Special coil, 32# at 1/4" stroke Flathead Plunger
	EB600-29673	Push	Standard Side	110/60	.50	4.5	
	EB600-29693	Push	Standard Side	42 VDC	.50	8.0
