

## PVC-Coated Conduit and Accessories

Join threaded conduit where you can't use a standard coupling.

### OCAL-BLUE® Double-Coat Split Couplings

Split couplings serve as speed unions for cost-effective joining of two separate lengths of threaded conduit. Like other Ocal® fittings, they're double coated in urethane and PVC to safeguard your entire conduit system against corrosion.

- Malleable iron construction
- Nominal .002" (2 mil) blue urethane on both interior and exterior
- Minimum .040" (40 mil) PVC bonded to exterior
- PVC coating in your choice of blue, white and gray standard colors with custom colors available on request
- Stainless steel hardware included

**Note:** The use of standard couplings is recommended whenever possible over the use of split couplings, because standard couplings provide better overall corrosion protection.
