

Bronze Heavy Duty Parallel Clamps

Type VT

For use with copper conductors

- Made from high strength bronze castings for assurance against stress corrosion and season cracking
- Designed for heavy-duty service connections
- The cap swivels to permit quick and easy installation of conductors
- Retaining rubber washer eliminates loose parts
- Silicon bronze bolts and lockwashers
- Flat back permits use as bus tap when used with longer bolts
- For tin plating, suffix catalog number with “-TN”

Bronze Heavy Duty Parallel Clamps

Type VTA

For use with copper conductors

- Manufactured from high strength bronze castings with high conductivity spacer bar
- All parts are tin plated
- Rubber retaining washer eliminates loose parts
- If no spacer bar is required, see Type VT above

Note: VTA-1 through VTA-6 can be used on aluminum conductors, but are not UL listed for that application
