

Bronze Terminal Lugs - Two or Four Hole Tongue with Tandem Set Screws

Types PPNL and PP2NL

For use with one or two copper conductors

- Manufactured from high strength copper alloy for maximum conductivity and corrosion resistance
- Used for joining a wide range of copper conductors to equipment pads or bus bars
- Plated steel set screws provide high strength connection
- Tandem set screws provide superior mechanical performance for heavy duty applications
- Two and four hole mounting pads allow for maximum surface contact in heavy duty applications
- Annular serrations in conductor grooves provide improved mechanical performance
- Inspection hole allows for visual confirmation of proper cable insertion
- Lug can be furnished electro-tin or silver plated
- For tin plating, suffix catalog number with "-TN", "-SV" for silver plating
