

PGMMOD00 DISPLAY / PROGRAMMING FRONT

Functionality

The simple and easily understandable menu structure and the explanatory help texts guide you effortlessly and automatically through the setup steps, thus making the product very easy to use. Functions and setup options are described in the section "Setup / operating the function keys".

Application

- Communications interface for modification of operational parameters in the IAMS devices.
- Can be moved from one device to another of the same type and download the setup of the first device to subsequent devices.
- Fixed display for readout of process data and status.

Technical characteristics

- LCD display with 4 lines; Line 1 (H=.2 inch/5.57 mm) shows input signal, line 2 (H=.2 inch/3.33 mm) shows units, line 3 (H=.13 inch/3.33 mm) shows analogue output or tag no. and line 4 shows communication and relay status.
- Programming access can be blocked by assigning a password. The password is saved in the device in order to ensure a high degree of protection against unauthorised modifications to the setup.

Mounting / installation

- Click PGMMOD00 onto the front of the device.
