

# RSP SERIES NYLON CORD GRIPS

## RSP SERIES NYLON CORROSION-RESISTANT CORD CONNECTORS

The Tuff-Seal™ RSP Series of Non-Metallic Cord Connectors are constructed of a durable, nylon material which offers excellent corrosion resistance, is lightweight, durable and ideal for use in damp environments. RSP Cord Connectors are ideally suited for use in applications with moisture or washdowns and they provide an environmental seal against dirt, coolants, fumes and the like.

RSP Corrosion-Resistant Connectors can be ordered with or without wire mesh attachments. The straight- body style accommodates 3/8", 1/2" and 3/4" conduit sizes while the 90° body fits 1/2" and 3/4" conduit. These connectors also feature a compression bushing made of high-quality, oil resistant Neoprene rubber with an anti-friction washer made of nylon.

RSP Connectors are suitable for use in both indoor and outdoor applications to prevent cable pullout and control arc of bend.

### NOTES

#### CORD GRIP ACCESSORIES

Locknuts: add "-L" to any part number  
O-Rings: add "-R" to any part number

Also available in yellow. Add "-Y" to part number.

#### SPECIAL CONFIGURATIONS

Special configurations and materials are available. Consult factory.

All wire mesh is stainless steel.

Dimension & certification information on pages 62 & 66 in Tuff-Seal Technical Reference.
