

SCD SERIES, ENCAPSULATED, INDUSTRIAL DC TO DC CONVERTER

The SCD series is a compact, rugged DC to DC converter designed to power industrial control instrumentation devices and equipment where AC power is not convenient or accessible. With high reliability and a wide input range, these units can operate through the most difficult factory-floor conditions around the globe.

Features

- DIN Rail or Chassis mount by removing DIN clips
- Rugged, encapsulated design to resist environment
- IP20 protection
- Wide 20 to 72 Vdc input range
- M3 screw clamp terminations
- Simple snap-on for DIN Rail TS35/7.5 or TS35/15
- Galvanic isolation
- Limited five-year warranty

Applications

- Industrial - encoders, special sensors, communications and instrumentation
- Telecommunications systems
- Remote site/harsh environment
