Dimensions.....	H86

Series D7 Pilot Devices

The economical solution for high performance control, signaling and switching applications

D7P – Plastic housing with a black plastic captive bezel.

D7M – Die-cast metal housing and locking ring with shiny metal captive bezel.

Sprecher + Schuh's rugged D7 pilot devices offer maximum flexibility and a wide choice for all applications. This 22mm line is aesthetically appealing and modularly designed to make assembly and interchangeability easy. The D7 operators are available in two different body styles to meet every application need. Both operators exhibit a stylish, low profile appearance while maintaining the rugged performance necessary for demanding environments.

Two operator types

D7P is a plastic operator with a captive black plastic front bezel. Constructed of high-grade thermoplastics the D7P is the corrosion resistant solution for harsh environments.

For super tough applications, the D7M has a die-cast zinc housing and mounting ring for rugged durability. Both are finished with corrosion resistant chrome plating. The D7M also features a captive shiny metal bezel for a polished appearance.

Less inventory, more choices

Sprecher + Schuh offers D7 pushbuttons in a wide range of devices — from selector switches to multifunction pushbuttons. Their modular design keeps the number of required parts to a minimum, while offering multiple functions and a variety of style and color combinations.

Back-of-panel components can be combined with all front elements, making the D7 line extremely flexible. This approach reduces inventory, yet provides virtually any configuration you require.

Quick, easy installation

A standard anti-rotation tab keeps front elements from turning or falling off the control panel, making it possible for one person to install all D7 components even if the front and rear panel are not accessible at the same time. A central mounting ring allows for quick installation and removal of all D7 operators.

All back-of-panel components, including contact blocks and power module elements, snap-on and are readily accessible and interchangeable without removing the pilot device from the panel.

Tool-less mounting latch

The D7 "tool-less" mounting latch mates the front element with the contact blocks and other back-of-panel components. The mounting latch is available in a plastic and metal design. The latches are easily installed with a "click" and removed by pushing a rotating collar to the right. Quick, reliable and strong, it's the best pilot device mounting latch available in the industry.

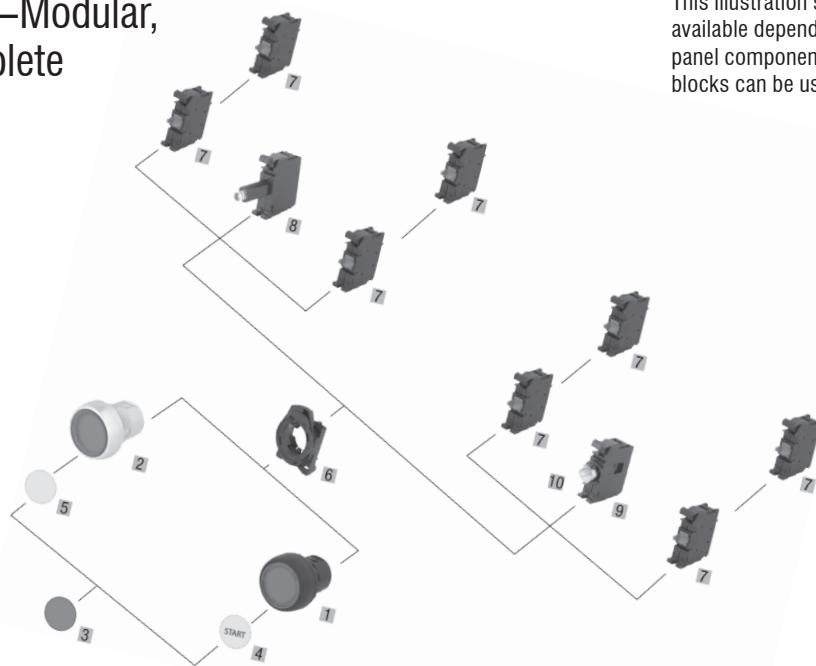

Long electrical and mechanical life

Most D7 operators have a mechanical life of ten million operations... five million for contact blocks. Electrical life ranges from 500,000 cycles at 3A to ten million at 0.1A. The D7 line is also electronics compatible with self-cleaning contacts.

Environmental ratings

Front elements, including pushbuttons, mushroom operators and selector switches, are IP 66 protection against submersion, oil and dirt, making them reliable in the toughest industrial environments. Metal operators are Type 4/13 and plastic operators are Type 4/4X/13.

D7 Pilot Devices – Modular, flexible and complete

This illustration shows typical combinations available depending on the front and back-of-panel components chosen. Up to six contact blocks can be used on non-illuminated devices.

- 1 **D7P Operator** – Corrosion resistant plastic construction with black plastic bezel
- 2 **D7M Operator** – Metal construction with shiny metal bezel
- 3 **Colored Lenses and Color Caps** – Available in many colors

- 4/5 **Inscription Diffusers** – Diffusers and color caps available in many standard text and ISO symbol options, and foreign languages
- 6 **Tool-less Mounting Latch** – For snap-on contact blocks and power module elements
- 7 **Contact Blocks** – Five types available including NOEM, NCLB, and Low Voltage

- 8 **Power Modules, Integral LED** – Full voltage module requires only one slot
- 9 **Power Modules, Incandescent** – Full voltage module requires only one slot
- 10 **Bulbs** – Incandescent bulbs that include the incandescent power module

Additional features and options

Heavy-Duty Ratings – The D7 line is UL 46E, NEMA A600 and Q600 listed. All components carry a 10 Amp continuous current rating, covering all industrial control needs.

All Major Approvals – D7 front elements are UL Recognized, while all D7 assemblies are UL Approved. The line is also approved by every major international agency making them ideal for export requirements.

Special Contact Blocks & Power Modules – Screwless terminals are available for latching integral LED modules.

H-Bridge & Gold Plated Contacts

By doubling the available paths for current to pass through the contacts, the standard H-bridge design provides a cleaner current flow. Gold plated contacts quadruple the current paths for increased contact reliability in low voltage applications.

Molded Inscription Caps/Diffusers – Abrasion proof inscription caps/diffusers are offered in a two-color molded design for most common inscription text and symbols used in the industry.

Custom Printed Caps/Diffusers

Durable long lasting custom printed inscription caps/diffusers are offered in a wide variety of ISO symbols and text options, and withstand repeated use in the harshest environments.

Touch-Safe – Back of panel components are finger safe, with IP 20 protection.

Long Lasting Integral LED Assemblies – Our LED lamps last up to 11 years! They are conveniently offered as a complete unit for all illuminated operators which include the one-piece Integral LED Module. They come in three different colors: green, red and white.

Full Line of Accessories and Enclosures – A variety of metal and plastic enclosures are available for any application. Replacement components, legend plates and convenient accessories are available from stock, including rings for adapting 30mm holes to fit the 22mm D7 line.

“EMO” Emergency Stop Operator

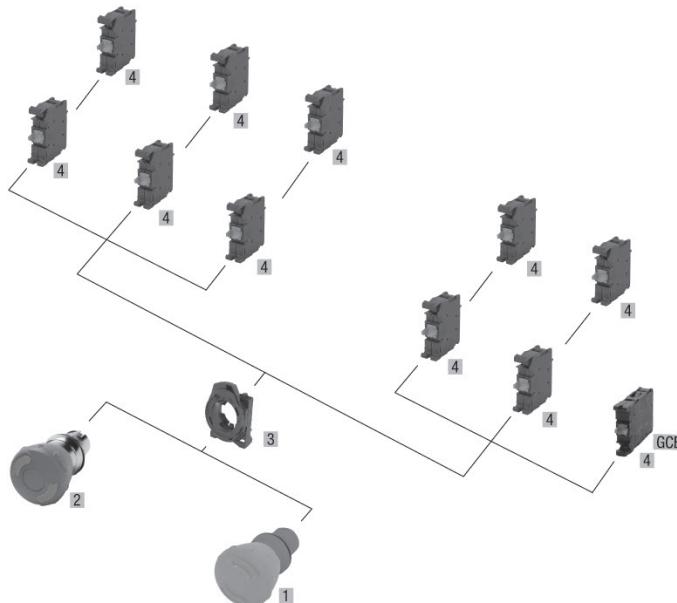

40mm Emergency Stop metal and plastic operators are available with a special “EMO” inscription. To order:

- Select 40mm kit of choice
- Add suffix “E” to catalog number
Ex.: Change D7P-MT44PX01 to D7P-MT44EPX01
- List price changes.

Semicon compliant yellow plastic guards available, see page H72

- ① Up to 6 contact blocks (3 across / 2 high) can be attached.
- ② See page H74 for complete kit ordering information on other special contact blocks: Early make, late break, low voltage contact blocks.
- ③ Order inscription ring or legend plate for identification. See pages H68 and H73 for information.
- ④ When ordering E-Stop Complete Kits with Guardian Contact Blocks, additional NO and NC contact blocks should be ordered as components from the opposite page.
- ⑤ Operators are EN-ISO13850 compliant with standard NC, NCLB or Guardian contact blocks.
- ⑥ Operators, latch, and contact block combinations have been third-party tested for B10d values. B10d values can be found in approval document EL660_01_10 online at www.sprecherschuh.com.

- ④ Low voltage contact blocks must be ordered separately.

E-Stop Guardian Contact Blocks (D7-X01S)

Separation of the contact blocks from the front operator or mounting latch can prevent an E-Stop from shutting down the controlled process in an emergency. Proper contact block installation is critical to ensure that the normally closed contacts will open when the E-Stop is actuated.

Designed for critical control applications, Sprecher + Schuh's new Guardian Contact Block (GCB) monitors itself to assure it is properly installed on E-Stop operators.

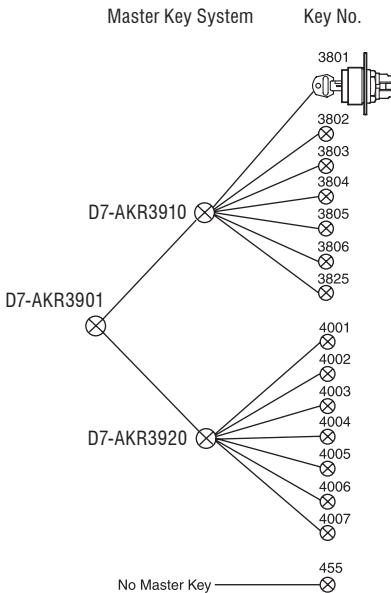

A normally open Guardian contact is physically molded and wired in series with a standard set of normally closed (NC) contacts. The normally open Guardian contacts automatically close when the contact block is properly installed on the E-Stop operator ①. In this state, the E-Stop and NC contacts operate as usual, with actuation of the E-Stop causing the NC contacts to open ②.

If the contact block should separate from the E-Stop operator, the normally open Guardian contacts will automatically open ③. Because the Guardian contacts are wired in series with the NC contacts, the opening of either set of contacts will open the circuit being controlled by the E-Stop.

Combine light and sound with Panel Mount Beacons and Alarms from

Auer Signal

Long life LED lighting for enhanced indication and panel mounted alarms up to 105 dB

Fits seamlessly into control panel along with other control devices.

When A Pilot Light Is Not Enough...

enhance your signaling needs with light and sound.

Beacons

Auer Signal offers an array of panel mount beacons designed for 22 mm diameter mounting holes. These beacons offer incandescent bulbs or long lasting LED bulb options. Multi-faceted polycarbonate lenses offer an enhanced panel indication available in 12 V to 240 V AC/DC. Selections are available in Steady, Flashing Strobe, Multi-Strobe and Dual colors on the same unit. See the complete selection of Auer panel mount beacons starting on page J37.

Alarms

When a simple indicator is not enough, add a panel mount alarm. Auer Signal alarms mount into standard 22 mm diameter panel holes, right next to other pilot devices. In three sizes, and up to 105 dB of sound, signaling critical control issues is incorporated right into the panel door. Easily configured with DIP switches, choose from pulsing wobble or continuous tone options. And the 30 mm ESK model is fully enclosed, which is suitable for use in food industry applications. Auer panel mount alarms can be found on page J38.

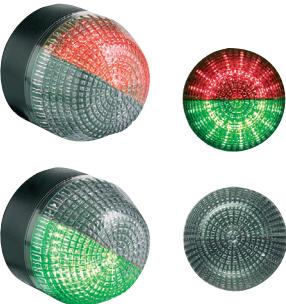

Beacons I at 65, 45 & 30 mm ø

Combine Light + Sound

The Series I beacons with alarm combine both light control and alarm signaling in one unit. Available in two sizes for mounting into a standard 22mm diameter panel hole. Choose the light and tone synchronized or separately controlled. Tones from 98 to 103 dB are easily selected via terminals.

Panel Mount Beacons with integrated alarms

M22 Dual Color beacons

M22 Alarms

- ① Legend plates sold separately. See page H73 for information.
② Will accept latch and up to four single circuit contact blocks; no contacts allowed in center position.
③ If contact blocks are used, they must have a minimum rod length of 55mm for one level of contact blocks and 85mm for two levels of contact blocks.
④ Rod is threaded along its entire length. Fully threaded rod can be provided after cutting.
⑤ 11 mm reset stroke length.

Single Turn Potentiometer Assembly①②

Plastic operator with plastic bezel
Type 4/4X/13, IP66

Single Turn Potentiometer

Resistive Element	Catalog Number
None (Operator Only)	D7P-POTA
150 Ω	D7P-POT1A
500 Ω	D7P-POT2A
1000 Ω	D7P-POT3A
2500 Ω	D7P-POT4A
5000 Ω	D7P-POT5A
10000 Ω	D7P-POT6A

The D7P-POTA is a complete operator assembly supplied without the resistive element, used with potentiometers having a shaft diameter of 6.0 mm (0.23 in.) and a shaft length of 50.0 mm (1.97 in.), or a shaft diameter of 6.4 mm (0.25 in.) and a shaft length of 22.5 mm (0.88 in.) This operator is used with Type "J" potentiometers only.

PRODUCT FEATURES

- Push-pull and twist-to-release in one device
- Non-removable contacts promote safety in E-stop applications
- Arrows molded on cap indicate direction of release
- Trigger action anti-tease feature
- Externally tamper proof
- 40 mm mushroom cap
- Non-illuminated
- E-Stops meet the EN ISO13850 and EN 60947-5-5 standards
- UL type 4/4X/13, IP 66

- ① Accepts 2-piece snap-in legends. See panel hole spacing requirements on page H86. Inscription rings possible with 1-hole enclosure only.
- ② All "Complete Assembly" orders for two and three pilot devices should be accompanied by a sketch showing position of elements in enclosure.
- ③ Will accept one stack of latch mount contact blocks (1-3 contact blocks).
- ④ Will accept base mount and latch mount type contact blocks and power modules (1-3 contact blocks).
- ⑤ To complete the catalog no., replace the **x** with one of the following letters for desired color: **Y** = Yellow, **R** = Red, **G** = Green, **B** = Blue, **W** = White.

Ordering Instructions

- Specify Catalog Number
- If applicable, add suffix from opposite page for complete Pushbutton Station assembly
- Total the list price of the pushbutton enclosure and the modification selected

Complete Assemblies ②

Pushbutton Enclosures can either be purchased "stand alone," or completely outfitted with the standard pilot device combinations listed on the opposite page. Each enclosure accepts up to three contact blocks on each pilot device (one deep).

The Type 1 enclosure accepts standard latch mount contact blocks and power modules. The Type 4 and 4X enclosures accept base mount or latch mount contact blocks and power modules. Pendant stations are latch mount only.

If purchasing components separately for self-assembly, order enclosure and, if necessary, base mount or latch mount contact blocks and lamp elements from this page, then turn to appropriate page to order pilot devices.

Custom Assemblies

Only the most popular combinations are listed in this table. If your application calls for five control units, or you require different pilot device or contact block configurations, consult with your Sprecher + Schuh sales representative for pricing and ordering information.

NOTE: On pushbutton combinations such as UP-DOWN, FOR-REV, HIGH-LOW, etc., we provide two additional contacts for an interlock circuit.

Ordering Instructions

- Add catalog suffix to the end of the enclosure catalog number on previous page
- Total the list price of the pushbutton enclosure and the modification selected

- All Pushbutton Enclosure modification orders for two and three pilot devices should be accompanied by a sketch showing the position of all elements.
- All pushbuttons have white lettering on the color indicated.

Component	Description	"Ronis" Key No.	Catalog Number	Pkg. Qty.
	Replacement Ronis Key Standard replacement key is Cat. No. D7-AKR3825 Note: Minimum order quantity is one package of 2 pieces.	Master Key System Key No. 3801 3802 3803 3804 3805 3806 3825 4001 4002 4003 4004 4005 4006 4007 3901 ① 3910 ① 455 3801 3802 3803 3804 3805 3806 3807 4001 4002 4003 4004 4005 4006 4007 3901 ① 3910 ① 455	D7-AKR3825 D7-AKR455 D7-AKR3801 D7-AKR3802 D7-AKR3803 D7-AKR3804 D7-AKR3805 D7-AKR3806 D7-AKR4001 D7-AKR4002 D7-AKR4003 D7-AKR4004 D7-AKR4005 D7-AKR4006 D7-AKR4007 D7-AKR3901 D7-AKR3910 D7-AKR3920	1 set 2

① Master key. See diagram for master key system details.

② Minimum order quantity is one package of 2 keys.

③ Sold in multiples of 10. Order (quantity of) 10 to receive one package of 10 pieces.

Locking Attachments

Component	Description	Type	Catalog Number	Pkg. Qty
	Locking Attachments are used to lock Push Button in the depressed position. - N.C. contacts are open - N.O. contacts may or may not be open - N.C.L.B contacts may or may not be closed - N.O.E.M contacts are closed	Flush, Momentary, Non-illuminated	D7-AFL1	1
		Extended, Momentary, Non-illuminated	D7-AEL1	1
		Momentary Mushroom	D7-AML1	1
	Locking Cover Used on Flush, Extended and Guarded Momentary and Maintained Operators, and Standard Knob Selector Switch Operators.	Maintained Mushroom	D7-AML2	1
		~	D7-AL01	1
	Selector Switch Locking Attachment Locks selector switch in specified position	2-Position Selector Switches, Left Lock	D7-ASL2L	1
		3-Position Selector Switches, Center Lock	D7-ASL3C	1
	Selector Switch Locking Attachment Ability to put two locks on standard knob selector switch.	2- or 3-Position Selector Switches, All Positions	D7-ASL23A	1

Protective Guards

Component	Description	Type	Catalog Number	Pkg. Qty
	40 mm Protective Guard used with illuminated and non-illuminated momentary mushroom operators (40 mm) only.	Shiny Metal	D7-AMMG	1
	Protective Ring for use with <ul style="list-style-type: none"> • Illuminated/Non-Illuminated 2-Position Maintained • Illuminated/Non-illuminated 3-Position Mushroom (30mm and 40mm only) 	Shiny Metal Black Metal Yellow Metal	D7-AMRG D7-AMRGB D7-AMRGY	1
	Plastic Guard for use with the following operators: <ul style="list-style-type: none"> • 40mm E-Stop (SEMI Standards Compliant) • 40mm Illuminated/Non-Illuminated Maintained and Momentary operators • 60mm Illuminated/Non-Illuminated Momentary operators • Selector Switches (standard knob and key operated) • Potentiometer 	Yellow, Round	D7-A6PR5	
	Narrow Plastic Guard for use with the following operators: <ul style="list-style-type: none"> • D7D Monolithic E-Stops • Flush/Extended/Guarded Push Buttons • Maintained Operators (SEMI standards compliant) • Selector Switches (standard knob and key operated) • Potentiometers 	Yellow, Plastic	D7-AMEGY	1
	Clear Silicone Protective Boot used on illuminated and Non-illuminated, flush and extended operators. Note: Sold in multiples of 10. Order (quantity of) 10 to receive one package of 10 pieces.	Flush Push Button Extended Push Button 3-Position Multi-Function 2-Position Multi-Function	D7-AB7 D7-ABE7 D7-AUB1 D7-AUB2	10

Accessories

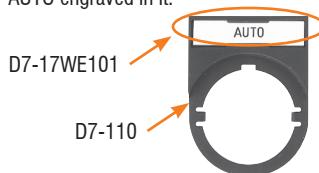

Component	Description	Material	Catalog Number	Pkg. Qty
	Replacement Boot for Toggle Switch (D7M-JMR)	Silicone Nitrile	D7-ABJS D7-ABJN	1
	Hole Plug used to plug 22.5mm holes. - UL Type 4, 4X, 13, IP66	Black Plastic Gray Plastic	D7-N2 D7-N8	1

Legend Plates

Component	Description	Catalog Number	Pkg. Qty
	Legend Plate Frame 30 x 40 mm	D7-110	10
	Legend Plate Frame 30 x 50 mm	D7-120	10
	Legend Plate Frame (for use with multi-function operator) 30 x 60 mm	D7-200	10
	Legend Plate Frame (for use with multi-function operator) 50 x 50 mm	D7-400	10

Component	Description	Blank Legend Plate		With Text or Symbols	
		Catalog Number	Pkg. Qty	Catalog Number	Pkg. Qty
	Legend Plate - for D7-110 Legend Plate Frame White with black text Black with white text Aluminum with black text	D7-17WE100 D7-17BE100 D7-17AE100	10	D7-17W●●●● D7-17B●●●● D7-17A●●●●	1
	Legend Plate - for D7-120 & D7-200 Legend Plate Frame White with black text Black with white text Aluminum with black text	D7-18WE100 D7-18BE100 D7-18AE100	10	D7-18W●●●● D7-18B●●●● D7-18A●●●●	1
	Legend Plate - for D7-400 Legend Plate Frame ① White with black text Black with white text Aluminum with black text	D7-42WE100 D7-42BE100 D7-42AE100	10	D7-42W●●●● D7-42B●●●● D7-42A●●●●	1

Example: **Cat. No. D7-17WE101** identifies a white legend plate with blank text, 30 x 40 mm snap-in legend plate with AUTO engraved in it.

- Select the catalog number for the appropriate legend size and color from the Selection Tables on this page.
- Complete the catalog number by adding the appropriate suffix number starting on page H79.

① Three snap-in legend plates are required for each D7-400 legend plate frame.

Complete Kits with Special Contact Blocks ①③

P	X	0	1	L					
Mounting Latch	Contact Block Style ①	NO Circuits ③	NC Circuits ③	Specialty Blocks ②					
Code	Description	Code	Description	Code					
P	Plastic Latch	X	Screw Termination	0	No Contact	0	No Contact	blank	Standard blocks
M	Metal Latch			1	1 NO	1	1 NC	V	Low voltage
				2	2NO	2	2 NC	E	NO, early make
				3	3 NO	3	3 NC	L	NC, late break
				4	4 NO	4	4 NC	S	Guardian block

Material Listing

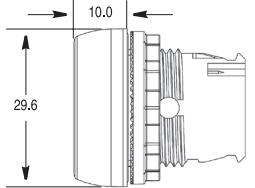

Component	For Use with	Material Used
Panel gasket	All operators	Nitrile, TPE
Diaphragm seal	Illuminated push button, non-illuminated push button	Automotive industry acceptable silicone
K-seal	Selector switch, key selector switch, push/twist-to-release E-stop, key E-stop, push/pull mushroom	Nitrile
Diaphragm retainer, return spring I	Illuminated push button, non-illuminated push button, momentary mushroom	Stainless steel
Return spring II	Reset, selector switch, key selector switch, maintained action, push/twist-to-release E-stop, key E-stop, push/pull mushroom	Zinc coated music wire
Button cap/mushroom head	Non-illuminated push button, momentary mushroom, reset, push/twist-to-release E-stop, key E-stop, push/pull mushroom, multi-function	PBT/polycarbonate blend
2-color molded button cap	Non-illuminated push button	PBT/polycarbonate blend
Lens	Multi-function	Acetal
Lens, knob	Illuminated push button, illuminated momentary mushroom, illuminated selector switch	Polyamide
Knob	Non-illuminated selector switch	Glass-filled polyamide
Plastic bezel/bushing I	Non-illuminated push button, illuminated push button, momentary mushroom, selector switch, key selector switch, push/twist-to-release E-stop, key E-stop, push/pull mushroom, multi-function, reset	Glass-filled polyamide
Plastic bezel/bushing II, jam nut	Pilot light, reset jam nut, reset pusher	Glass-filled PBT
Metal bezel/bushing	All metal operators	Zinc
Diffuser	Illuminated push button, pilot light	Polycarbonate
Legend frames	—	Glass-filled polyamide
Plastic mounting ring	All plastic operators	Glass-filled polyamide
Metal mounting ring	All metal operators	Chromated zinc
Plastic latch	—	Glass-filled polyamide
Metal latch	—	Chromated zinc + stainless steel
Plastic enclosure	—	PBT/polycarbonate blend
Metal enclosure	—	Aluminum
Terminal screws	LED module, incandescent module, contact blocks	Zinc-plated steel with chromate
Terminals	LED module, incandescent module, contact blocks	Brass with silver-nickel contacts
Screwless	LED module, incandescent module	Stainless steel
Lamp socket	Incandescent module	Brass
Housing	Incandescent module, LED module	Glass-filled polyamide
Low voltage terminals	Contact blocks	Gold plated silver-nickel contacts
Low voltage spanner	Contact blocks	Gold-plated silver-nickel contacts
Spanner	Contact blocks	Brass with silver-nickel contacts
Boot	Toggle Switch, illuminated push button, non-illuminated push button, multi-function illuminated an non-illuminated	Automotive industry acceptable silicone
