> UL Type 1, 4, 4X & IP66 protection
> Waterproof membrane

> Easy to install
> Two sizes – M40 & M12

Pressure differentials in a hermetically sealed enclosure are a result of the heat generated by electrical and electronic components in the enclosure, as well as the fluctuation of the outside temperature. In the case of negative pressure or vacuum, for example, dust and humidity can enter the enclosure through the door seal. The DA 284 Vent Plug provides a protected enclosure environment for valuable and crucial components with a UL 4X rated degree of protection. A waterproof membrane inside the device allows air and humidity to leave the enclosure while not allowing moisture and dust from the outside to enter.

TECHNICAL DATA

| | |
|---------------------------------|---|
| Mounting | thread with nut (see below) |
| Torque | 5 Nm |
| Material | plastic according to UL 94V-0, light grey, weather and UV light resistant according to UL 746C (f1) |
| Sealing | NBR gasket |
| Filter | waterproof membrane |
| Operating / Storage temperature | -31 to +158 °F (-35 to 70 °C) |
| Approvals | UL File No. E234324, EAC |
| Note | Material adheres to limit values in accordance with RoHS3 |

Installation

Make cut-out in enclosure wall of diameter 1.58 inches (40,5^{+0.5} mm) for size M40 or 0.48 inches (12^{+0.2} mm) for size M12, and mount vent plug with nut. Make sure that the sealing gasket is placed on the outer side of the enclosure. For optimal pressure compensation, it is recommended to use two devices on opposite sides towards the top of the enclosure.
