

- Compact design
- Built-in overheat protection
- Integrated adjustable thermostat or fixed hygrostat
- Double insulated plastic housing
- Panel or DIN rail mounting

The compact CR 130 high performance fan heater prevents formation of condensation and provides an evenly distributed interior air temperature in enclosures. This fan heater is available with an integrated thermostat for temperature control or a pre-set hygrostat for humidity control. The CR 130 was designed as a stationary unit for panel or DIN rail mounting. For foot mounting on the bottom of an enclosure, the CR 030 fan heater is recommended.

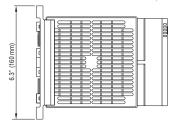

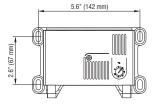

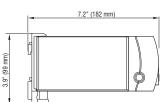

## Technical Data
