

# Polar Bay T8/T5

## DESCRIPTION

Polar Bay's full body assembly accommodates either T8 or T5 lamps. The gasketed enclosure is constructed of a fiberglass upper body and acrylic diffuser, with a continuous poured gasket. The diffuser and upper components are locked by retaining latches, which ensures a tight seal. Sockets include secure, positioning rotating collars.

## APPLICATION

The Polar Bay Enclosure is IP66 and IP67 rated, dust and moisture-resistant (high volume hose tested), making it ideal for harsh environments where humidity or moisture is present.

Primary applications include the following:

- Food Processing Facilities
- Kitchens
- Public Areas
- Subways
- Schools
- Parking Garages
- Gas Stations
- Government Facilities
- Industrial Facilities
- Exterior Retail

## REFLECTOR OPTICS

The superior beam spread optics are ideal for an open area, general lighting. The Polar Bay comes standard with a white channel cover (WA), and it is available using a specular aluminum (SA) Miro®4 Reflector, which has a 25 year warranty.

## ELECTRICAL

All ballasts are Class P rated and UL/cUL Listed. Our ballasts are also thermally protected, sound rated and tightly secured by mounting bolts, as well as NEMA Premium and CEE qualified.

## FINISH

The finish is white with fiberglass housing.

ARRA Qualified

- PLSURFMOUNT - Surface mount bracket for Polar Bay; order (2) per luminaire

Use a program rapid start ballast with occupancy sensor. TCP is not responsible for lamps failing prematurely due to an occupancy sensor being used with an instant start ballast.

### Mounting

Supplied with a stainless steel mounting bracket

**Emergency Ballast Notes:**  
Orders with an emergency ballast must include a note on the order indicating the number of lamps to be operated, which lamp(s) will be operated by the emergency ballast (i.e. 3rd lamp), and what voltage is to be used (i.e. 120V). See Emergency Ballast Spec Sheets for details.

† If a desired lamp and/or ballast is needed in a TCP linear fluorescent fixture, please provide a spec sheet when consulting with your local sales rep. The sales rep will provide a price for the desired lamp and/or ballast.
