Description

Product Description

No network set up yet? No problem!

The CamView™ IP Pro works with both IP and Analog SD cameras to allow you to test, verify, and troubleshoot cameras, cables, and networks even before the network is setup, or even before the power is setup!

- Works with the most popular IP* & Analog NTSC/PAL cameras
- Works with or without a network. Built-in DHCP server allows you to:
  - Set & Assign IP addresses to cameras
  - Auto-detect IP settings on networks
  - Ping, Sniff, List Subnet
- Powers IP cameras—no need for external PoE
- No need to download Apps or manufacturer-specific software
- IP camera tests including: discover the camera, view camera's video, configure camera's parameters, etc.
- Record, save, and export full IP camera reports
- Ethernet Tests including:
  - 10M/100M/1G Ethernet Link Test
  - Packet Loss Test
  - Ethernet Loop Detection, etc.
- Powers Analog cameras—12 VDC @ <2A
- Analog Camera Test & RS485 PTZ Control Test
- Intuitive user interface
- Compact, lightweight, & ruggedized for real-world use

*IP Camera must be ONVIF compliant.
